## Informed Consent for Assessment and Treatment

Welcome to Therapy with Tommy. I am committed to our work together that will be designed to help you obtain your therapeutic goals. A counseling situation offers a unique relationship between the two of us. Therapy has the ability to allow one to process, grow, and heal. I am a Licensed Professional Counselor in an independent private practice located in Scottsdale, AZ. My credentials include a Bachelors Degree in Psychology, Masters Degree in Counseling Psychology, I am licensed by the Arizona Board of Behavioral Health Examiners and nationally through the National Board of Certified Counselors.

I offer counseling, psychotherapy, and coaching services to individuals, children/teenagers, couples, and families in the areas of mental health, relationships, adjustment, personal development, family transition (i.e. divorce), parenting and skill development issues. I utilize a multimodal approach to therapy that is geared towards self-improvement and personal growth. I employ therapeutic techniques and interventions that specifically cater towards each individual, couple, or family. In order to start our therapeutic relationship in a healthy way, I have put together this document to ensure that there are no misunderstandings about the various aspects of the counseling and psychotherapy services. If you have any questions, please do not hesitate to ask.

**Purpose, limitations, and risks of treatment:** Counseling, like most endeavors in the helping professions, is not an exact science. While the ultimate purpose of counseling is to reduce your distress through a process of personal change, there are no guarantees that the treatment provided will be effective or useful. Moreover, the process of counseling usually involves working through tough personal issues that could result in some emotional or psychological pain for the client. Attempting to resolve issues that brought you to therapy in the first place may result in changes that were not originally intended. Psychotherapy may result in decisions about changing behaviors, employment, substance use, schooling, housing, relationships, or virtually any other aspect of your life. Sometimes a decision that is positive for one family member is viewed quite negatively by another family member. Change will sometimes be easy and swift, but more often it will be slow and even frustrating. There is no guarantee that psychotherapy will yield positive or intended results. In the case of marriage and family counseling, interpersonal conflict can increase as we discuss family issues. I value my approach to pro-active therapy. Treatment plans and goals will be discussed and a plan of action will be established.

**Treatment process and rights:** Your counseling will begin with one or more sessions devoted to an initial assessment so that I can get a good understanding of the issues, your background, and any other factors that may be relevant. When the initial assessment process is complete, we will discuss ways to treat the problem(s) that have brought you into counseling and develop a treatment plan. You have the right and the obligation to participate in treatment decisions, development of and periodic review and/or revision of your treatment plan. You also have the right to refuse any recommended treatment or to withdraw consent to treat, and to be advised of the potential consequences of such refusal or withdrawal.

**Privacy, confidentiality, and records:** Our communications and records created in the process of counseling are held in the strictest confidence. There are exceptions to this; those exceptions would include danger to yourself, danger to others, or matters of abuse or neglect. I will not be used to testify in legal matters related or

unrelated to therapy. I also ask by signing this form, you will not be requesting records for use in court or other legal matters, such as divorce or litigation.

- **This counselor will *not* be used to testify in legal matters related or unrelated to therapy.**

**Signature** \_\_\_\_\_

- **I also agree, there will be no recording of sessions unless asked and agreed upon by this therapist.**

**Signature** \_\_\_\_\_

During times when I am out of town or otherwise unavailable, I will typically have another licensed therapist on call for me. I reserve the right to disclose confidential information from your records and our time together, including personally identifiable information, to this on-call therapist to facilitate the coverage of your care in my absence.

There are also numerous other circumstances when information may be released including when disclosure is required by the Arizona Board of Behavioral Health Examiners, if a lawsuit is filed against me, to comply with worker compensation laws, to comply with the USA Patriot Act and to comply with other federal, state or local laws. The rules and laws regarding confidentiality, privacy, and records are complex and are created to protect you as the client.

In the event of my death or incapacity, the records for my clients that are actively receiving services (seen within the last month) will be given to one or more local behavioral health professionals to facilitate the continuation of treatment. In such a situation, you have the right to continue treatment with this professional, discontinue treatment, or ask for a referral. Records for my inactive clients will be handled by a “records custodian,” which may be an individual or company. The custodian will be responsible for satisfying records requests and destroying records when the legal timeframes for records retention are satisfied.

**Availability of services:** My practice does not have the capability to respond immediately to counseling emergencies. True emergencies should be directed to the community emergency services (911) or to the local hotlines (Empact – 480-784-1500, Banner Helpline - 602-254-4357, Value Options – 602-222-9444). I attempt to return phone calls within the same day if left during office hours or within a 24/48 hour period. Also, **I do *not* communicate via email.** Once you are an established client, you may schedule/cancel/re-schedule appointments via text message (same cancellation policy applies). I will respond to each text at my earliest opportunity. A quick or immediate response in one situation does not constitute a commitment of rapid response in another situation. If you do not get a response from me, you can assume I did not receive your text. Remember: It is not in my practice to do any type of therapeutic communication/counseling via text message...appointment scheduling only.

**I understand that texting/emailing is not confidential. Signature** \_\_\_\_\_

**Appointments/Financial:** There are sometimes misunderstandings about the length of sessions. Therapy sessions, as defined by the American Medical Association Current Procedural Terminology coding, are 50 minutes, not one hour. This is known as a “therapeutic hour.” Longer appointments are sometimes useful and can be scheduled if you let me know you would like to do this ahead of time. Please note that some insurance companies will not pay for an appointment outside of the traditional 50 minutes.

Payment is expected at the time the service is rendered. By signing this document, you are agreeing to pay for the services rendered and any additional expenses that may be accrued in collecting said fees. The fee for a 50 minute individual counseling session, family, couples, court ordered, or parenting session is \$160.00. All intake sessions will be billed at \$160.00 as well. Telephone sessions versus in-office sessions are billed at the regular session fee. Time spent providing special services, such as document reviews, telephone time, case consultations, and time spent discussing treatment with other professionals are billed at \$50.00 per 10 minutes.

Additional time added to the clinical session will be billed at the same additional rate. Refunds are not made after the services have been rendered.

Regular attendance at your scheduled appointments is one of the keys to a successful outcome in counseling. I reserve a 50 minute window for each appointment with a client. Appointments cancelled at the last minute are very detrimental to my practice. Therefore, I ask that you notify me a minimum of one full business day (24 hours, Tuesday through Friday) prior to your appointment if you need to cancel. Appointments on weekends or Mondays must be cancelled by the prior Friday at 9:00am (or you are financially responsible for the cost of our scheduled session). All appointments considered after school/work, appointments 3:00pm or later must be cancelled by 3:00pm the previous day. I do not initiate reminder phone calls so I do ask that you create a system that works for you to ensure you keep track of all scheduled appointments. You will be billed the full rate (\$160.00) for appointments you fail to cancel or do not show for, in accordance with this policy your credit card may be charged. Please note that these are personal financial obligations that **you** are responsible for; not the obligations of your insurance company.

*I understand the cancellation policy. Signature \_\_\_\_\_*

**Insurance:** I am not a preferred provider for health plans in this locality. If you are using one of these plans to pay for your treatment it would be your responsibility to call your insurance company to find out your mental health benefits. If you are using an insurance program, I will supply you with a super-bill (therapy receipt) that you can turn into your insurance company so they can reimburse you. Your insurance company or managed care company may limit the number of sessions based on their assessment of medical necessity or other factors. Their determination may or may not match what you want or need in treatment. In the event that they will not authorize additional sessions or you exhaust the sessions that your insurance will provide, you understand that you will have to pay for the additional services rendered. All services are paid immediately following the therapeutic session. In all cases however, payment for services is the responsibility of the client, not the insurance company. Once again, please discuss this with me if you have any questions.

**Phone Contact:** I have a strong preference to face-to face contact when doing counseling. I believe that personal contact facilitates a greater depth of understanding and makes our time together more productive. However, there may be times when some limited telephone counseling is warranted. Telephone counseling should be scheduled for a mutually agreeable time and will be billed at \$50.00 for each 10 minute period of counseling. If a “session” (50-minute) is scheduled, the full session fee will be charged. After a release is signed, phone consults with other professionals may be required. These consults/collaborations will be billed at the same rate: \$50 per 10 minute period.

Appointment availability varies with the client load at the time. High demand appointments (off hours, late afternoons, late evenings, weekends, etc.) are likely to be sporadic in their availability. I reserve the right to limit my commitments of high demand appointment times to any particular client in order to meet the needs of all my clients and balance my workload.

**Dispute Management:** If there is ever a time when you believe that you have been treated unfairly or disrespectfully, please talk with me about it. It is never my intention to cause this to happen to my clients, but sometimes misunderstandings can inadvertently result in hurt feelings. I want to address any issues that might get in the way of the therapy as soon as possible. This includes administrative or financial issues as well. Should we be unable to resolve the situation, you may contact the Arizona Board of Behavioral Health Examiners at (602) 542-1882.

**Consent for evaluation and treatment:** Consent is hereby given for evaluation and treatment under the terms described in this consent document. I acknowledge that I have a digital or printed a copy of this informed consent agreement for myself. It is agreed that either of us may discontinue the evaluation and treatment at any time and that you are free to accept or reject the treatment provided.
