Quantity:..... Catalog# .....

V2 3Watts 5CCT commercial downlights

FEATURES

- 6in 8in 3 Watts 5 CCT all in one.Replaces legacy CFL, HID or incandescent downlights
- Provides comfortable diffused light with no dark spots
- Dimmable to 10% with a wide array of dimmers
- Pre-wired with poke-in connectors for easy installation
- safety chain for secure installation onto existing ceilings

SUITABLE APPLICATIONS

- Office Lighting
- Meeting room lighting
- Store lighting
- Restaurant lighting

CONSTRUCTION:

Alluminum housing,Integrated trim with snap clips.

ELECTRICAL:

Available as 120-277V input. -20°C to 45°C.

OPTICAL SYSTEM:

High transmission PC lense,100°beam angle

INSTALLATION&MOUNTING:

Different open hole size by flash mounting with clips for easy installation.

WARRANTY:

5-year limited warranty. Actual performance may differ as a result of end-user environment and application.

INSTALLATION INSTRUCTIONS

WARNING

- Turn off electricity at main fuse box (or circuit breaker box) before beginning installation by removing fuse (or switching off circuit breaker).
- Be careful not to damage or cut the wire insulation (covering) during fixture installation. Do not permitpower cord or housing to contact any surface having a sharp edge. To do so may damage or cut the wireinsulation, which could cause serious injury or death from electric shock.
- This fixture require 100-277V power input. The installer must confirm the input power at the source prior to installation.

1、Locate a suitable location for the fixture and cut a6" (160mm)8"(205mm) 10"(228mm)round hole where the LED Downlight (A) will be installed.Ensure this location has accessto a junction box with electrical wire from the switch(power supply) and allows for clearance depth of 5.5inches.A template is provided to assist in properlylocating and cutting the hole.

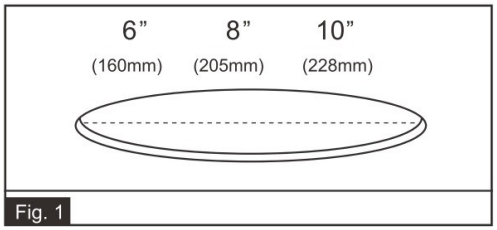

Fig. 1

2、Connect AC and dimming supply cables insidehardwire junction box (not included) in the following manner: black to black, white to white, pink to pink or grey,and purple to purple.Place all wiring connections back into the hardwire junction box and close the cover.

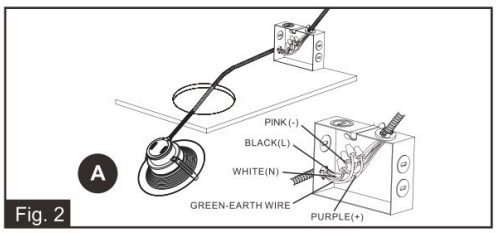

Fig. 2

3、Adjust the CCT (correlated color temperature)and Lumen/Power to the desired levels byusing the switches on the back of the fixture.

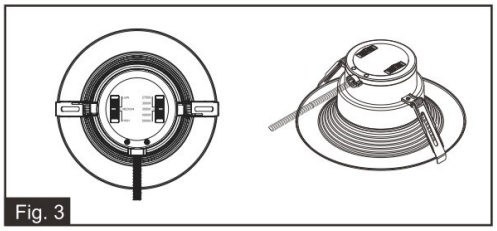

Fig. 3

4、Push the spring loaded clips on the LED Downlight (A) upwards and insert the base of theLED Ultra-Thin Downlight (A) into the mountinghole established in Step 1.Release the clips andthe fixture will grip flush with the ceiling/drywall.

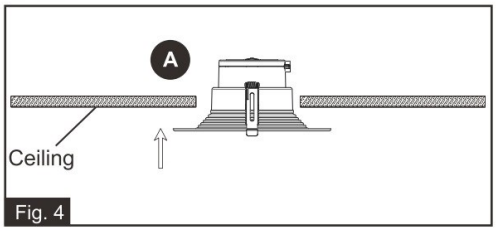

Fig. 4

5、Once assembly is complete, turn on power tcconfirm the fixture is working properly.
