

Specification

2.4G

5 years warranty

130 LM/W

2.4G Wireless Mesh CCT&Dimming Control LED Linear High Bay

Product Description

Material: 6063 Die-cast white Aluminum+PMMA
 Super Bright SMD2835 LEDs, LM80 rated Ra>80
 Lumen output: 130lm/w
 PF>0.9, THD≤20 %
 AC120-277V
 High quality PMMA Lens
 Non-flicker, protect your eyes
 5-7 days fast delivery once confirmed
 UL cUL certifications
 5 years warranty

Dimensions

PHB06	23.6*13.6*2.2inch
PHB12	47.2*13.6*2.2inch

Accessories (optional)

Emergency power supply	Microwave sensor	Infrared sensor
PMMA Lens(optional)	Power	

Structure

Luminaire Photometric Test Report

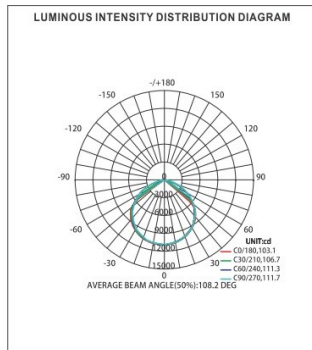

2ft 110W 5000K

2ft 160W 5000K

2ft 220W 5000K

2.4G Wireless CCT Tunable & Dimming function

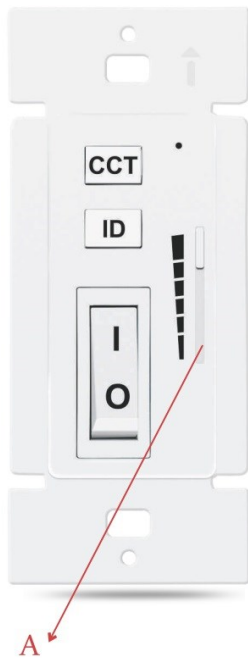

THE HANDHELD REMOTE CONTROLLER

	<p>ON Turn on OFF Turn off</p> <p>Handheld remote controller cannot be used directly as a switch, it should be used together with the switch.</p>
	<p>Turn off the light to save the current color temperature then turn on the light, the last saved color temperature will be displayed by default.</p>
	<p>Matching code for light</p> <p>Long pressing the 'ID' button will keep the controller's indicator on, then turn on the light and release the 'ID' button after the light flashes, matching code complete. Matching code for several lights simultaneously is available.</p>
	<p>Release the code and disconnect light from remote controller</p> <p>Press the button together, then turn on the light, the light will flash to finish releasing the code on the lights.</p>
	<p>Group selecting button</p> <p>Grouping lights (matching code process needs to be completed first). Turn off the lights, continue pressing the group selection button for 3s, then turn on the lights, the lights will flash to finish grouping.</p>
	<p>Save button</p> <p>Long pressing (3-5 seconds) the button "SAVE" until the light goes out, the current brightness and color temperature are automatically saved. Turn off lights then turn on, the last saved brightness and color temperature will be displayed by default.</p>
	<p>All Groups are selected</p>

Power the light off then power it on, the last saved brightness (which is saved by the button "SAVE") and the last saved color temperature (which is saved by the button "SAVE" or "OFF") will be displayed by default. The defaulted factory setting of the light is 100% brightness and 4000K.

THE WALL TYPE REMOTE CONTROLLER

	Turn on Turn off Wall-type remote controller can be used directly as a switch
	Long pressing (6-9 seconds) the button "ON" until the light goes out, the current brightness and color temperature are automatically saved. Turn off lights then turn on, the last saved brightness and color temperature will be displayed by default.
	Turn off the light to save the current color temperature then turn on the light, the last saved color temperature will be displayed by default.
	Light code matching button Pressing the 'ID' buttons simultaneously will keep the remote controller's indicator on, turn on the light and release the buttons after the light has been on for 2s completing the matching process. Matching code for several lights together is available. <div style="border: 1px solid gray; padding: 5px; margin-top: 10px;">If you need to use both hand-hold controller and wall controller for the same light, please don't use this function, directly use the following copy function.</div>
	Brightness adjustor
	Press the 'CCT' button, the color temperature will cycle between 3500K/4000K/5000K/5700K. After shutting down/turning off the current color temperature will be saved.

The matching method of hand-hold remote controller and wall-type remote controller, the wall controller can copy some of the functions of the hand-hold controller by the following method.

NO	Grouping	Hand-hold controller	Wall-type controller
1	1	1+ID	ON+CCT
2	2	2+ID	ON+CCT
3	3	3+ID	ON+CCT
4	4	4+ID	ON+CCT
5	ALL	ID	ON+CCT

After 10s of each operation the controller will enter standby power saving mode. If you need to make adjustments, simply press the "ON" button, the indicator will flash to show it is working. (If the controller is under working mode, the indicator will flash no matter which button is pressed).

Power the light off then power it on, the last saved brightness (which is saved by the button "ON") and the last saved color temperature (which is saved by the button "ON" or "OFF") will be displayed by default. The defaulted factory setting of the light is 100% brightness and 4000K.
