NOW LET'S LEARN HOW TO DRAW

Using the grid and co-ordinates let's try and draw this Astronaut.

Make a start by copying into square B-4 exactly what you see in the corresponding square on the page opposite. Then continue to draw what's in A-4 and A-3, and so on, until your picture is complete.

Emotions how do you feel about it?

Be
careful
how you
express
it

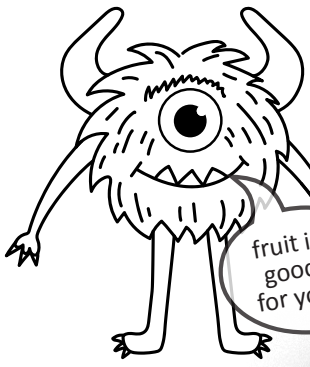

Are you
smiling
on the
inside

It's
turned
my smile
upside
down

Give each of the
Astronauts the sort of
facial expression that best
indicates how you would
feel if you were doing the
activities in the drawings.
