

# Ducher Rose

*Rosa 'Ducher'*

What can we say about this spectacular shrub rose except we **LOVE** it! Ducher seems to be blooming all the time, is disease and insect free, is fragrant, has lovely reddish new growth and white double flowers – it is thought to be the only white China rose. Grows 3'-4' x 3'-4'. Likes sun, but is surprisingly tolerant of partial sun as well. Practically maintenance free, Ducher is a favorite among landscapers and rosarians simply because it is one of the best roses grown.
