

# Arrowwood Viburnum

*Viburnum dentatum*

This is a viburnum that has it all! Gorgeous fall color, beautiful spring flowers, lush foliage and scrumptious berries for wildlife. The berries

start out green and slowly turn a metallic blue/black. Grown as an understory in hotter climates, Arrowwood can get 15'+tall and wide. A must for a woodlands garden. Multi-stemmed with spreading arching branches. Deciduous. Birds!
