

Pineapple Guava

Feijoa sellowiana

A large evergreen shrub or small tree with blue-green foliage and silver backing. Fragrant white flowers in the spring – the petals are **edible**. Also produces **edible fruit** as it matures. Full sun to part shade. Can prune as a hedge, or let grow – can reach 12' ,at least, if left unpruned. Cold hardy into the teens. Drought tolerant, disease resistant. Tough!!
