

Chinese Fringe Tree

Chionanthus retusus

A fast growing ornamental tree with attractive glossy dark green oval foliage that turns bright yellow in the fall. Puts on an incredible display of fringy white flowers in March. Looks like a thick white cloud at a distance. Has wonderful sculptured trunks and by late summer is covered with clusters of attractive dark blue fruit for wildlife. Full sun or light shade. A gorgeous and extremely tough tree. Good drainage. 25'x20'
