

Mexican Clethra

Clethra pringelii

An exciting, rare evergreen tree out of Mexico with dark green foliage & an upright growth habit. Long racemes of many tiny fragrant creamy-white flowers appear early to mid summer – filling the garden with the aroma of cinnamon. Full or part sun. Fairly fast growing. Prefers good drainage, will adapt to most soils. Grows to 18'-20' tall x 10'-12' w. **Evergreen** at least to zone 8A, cold hardy to zone 7.
