

**First Love Dianthus**  
*Dianthus barbatus*  
**‘First Love’**

**One of the finest, heat tolerant, long lived, super blooming dianthus on the market!!! ‘First Love’ blooms practically 12 months of the year, producing 12”-18” stalks topped with clusters of white, light pink, & dark pink frilly flowers. Light shade or sun. It’s happiest with a little afternoon shade in the summer. Moist, well drained soil.**
