

Cinnamon Girl® Distylium

Distylium myricoides 'PIIDIST-V' PP27,631

Consider this new small leaf selection an alternative to boxwood and other evergreen plants beleaguered by insects and diseases in the south. Cinnamon Girl® has plum-purple new growth which turns blue-green as the leaves mature. The small leaves and compact growth give this plant a more refined look than other Distylium on the market. 2'-3'h x 3'-4'w. Distylium need little to no pruning – best to let them grow naturally for the prettiest look!
