

Hybrid Fireman's Cap

Erythrina x. Bidwillii

A stunning, sterile hybrid of our native Texas Coralbean & the spectacular Fireman's Cap tree. Bidwillii forms a very large shrub or small tree anywhere from 8' to 15' tall & produces incredible 2'-3' long stems of brilliant red tubular flowers in heavy bloom cycles late spring to fall. Goes dormant in the winter & is root hardy down to the low 20"s. Sun. Tough once established. An absolute must for Hummingbirds!
