

# Standing Ovation Little Bluestem

*Schizachyrium scoparium* 'Standing Ovation' PP25202

Also known as Upright Little Bluestem due to its sturdy, thick stems that keep it standing up even after high winds and pounding rains. Blue with hints of greens, purples and pinks change to shades of red and orange in the fall. 3'h x 2'w, 4'h with bloom stalks. Full sun, good drainage. Don't over fertilize bluestems or plant them near sprinkler heads – they don't mind roughing it once established. Grasses are often overlooked for habitat gardens but shouldn't be! They provide support, shelter, winter food, nesting material & cover!
