## *Hamelia patens* Hummingbird Bush or Firebush

This large shrub/small tree is native to Mexico, but thrives in this area. It is root hardy, and will make a 4' – 5' mound in one summer. It is VERY drought tolerant and thrives in any soil as long as it has good drainage. The <u>orange/red flowers</u> are profuse from late spring until frost. <u>Amazing fall</u> <u>color</u>! Full sun. **Hummingbirds!**
