

Italian Oregano

Origanum x majoricum

Italian Oregano is called the “pizza herb” for its distinct hearty flavor that pairs so well with tomatoes. A great **evergreen** herb that you can use all year long. The flowers attract bees and butterflies! Cut and use often and it just keeps on growing. A great groundcover, border edging and container herb. **Drought tolerant, fragrant, edible!!** “That’s Amore!” Plant in sun or partial sun. Super cold hardy – stays green even into the 20’s.
