

Yellow Tree Hibiscus

Hibiscus hamabo

Hamabo fall color

A beautiful and unique hibiscus “tree” that grows 10’-12’h x 10’-12’w. This hardy, deciduous large shrub or small tree has rounded leaves with silver backing & blooms 3”-4” bright yellow flowers with a maroon center. Blooms heavily off and on throughout summer and fall. Likes full sun and well drained soil. No need to cover this hibiscus in the cold. It will put on a spectacular show of fall color before dropping it’s leaves for winter.
