

Pink Parasol Flare Hibiscus

Hibiscus moscheutos 'Pink Parasol'

12" massive pink blooms adorn a 4'x4' bush off and on all summer long. The Flare Hibiscus Series is hard to beat for beautiful, long blooming, tough, sun loving, soil tolerant, pest resistant, root hardy perennial hibiscus!! That's right – root hardy! They go dormant in the winter, so no need to drag out the frost cloth – let them sleep all winter – they'll return with vigor as soon as the temps warm up late spring.
