

Snow White Hibiscus

Hibiscus moscheutos 'Snow White'

Fabulous, 4' x 4' fashion show all summer long! This family of Hibiscus are known as "the swamp mallows" and they are hard to beat for a beautiful, long blooming, tough, sun loving, soil-tolerant, pest resistant, root hardy perennial hibiscus! 'Snow White' produces gorgeous, large snow white flowers that bloom from spring to fall on a well-behaved rounded "shrub". Sun & a moist, well-drained soil. Responds well to pruning.
