

Chinese Hat
Holmskioldia tettensis

What a wonderful color combination in the flowers, blue & pink! Each unique Chinese hat-shaped flower is made up of a narrow, blue tube-shaped flower ringed by a pink, circular calyx. These 1/2" flowers appear in dense terminal clusters throughout summer & fall on an upright large 4' shrub or can grow into a small 8'-10' "tree". Deciduous & root hardy in colder winters. Sun, light shade & a moist, well-drained soil.

Butterflies.
