

Zambesi Lily

OT Hybrid Lilium 'Zambesi'

A great naturalizing lily for Houston. Blooms late spring large pure white flowers. Their thick petals are durably weatherproof & are especially long lasting if you remove the pollen anthers after the flowers open. **Fabulous cut flower!** Plant grows up to 3' tall with thick stalks. Plant in sun with good drainage. Allow to die down naturally in the fall –bulblets will form along the stem below ground level to increase your clump size each year.
