

# Triumphator Lily

## *Lilium longiflorum x orientale*

Absolutely the best naturalizing lily for Houston! Explodes into bloom in the spring with 6" long, fragrant white flowers with beautiful maroon to rose-pink throats. Their thick petals are durably weatherproof, & are especially long lasting if you remove the pollen anthers after the flowers open. Excellent for cutting, dependably perennial. Grows 4' tall with thick stems that seldom need staking. Allow to die down naturally in the fall – bulblets will form along the stem below ground level to increase your clump size. Plant in full sun, in beds with improved soil & good drainage.
