

# Mexican Thornless Lime

Photo by Heidi Sheesley, TreeSearch Farms, Inc.

A beautiful, small, ever bearing tree of excellent quality fruit. Very Productive. Makes great pies, limeade, (gin & tonic) etc. Also, a very attractive container plant as it is not cold tolerant. Fruit has a pale yellow color, strong lemon-lime aroma, and a sharp clean sour taste. Thin skin. Bears year round. Same as the famous Key Lime!
