

Variegated Red Turk's Cap

Malvaviscus arboreus v. drummondii variegata

A new look to an old favorite – perennial, **native** turk's cap with variegated foliage! Same tough plant – grows 3'-4' high and wide. A profuse bloomer loved by butterflies, hummingbirds and songbirds. 1" bright red flowers spring through fall. Responds very well to pruning. Will grow in sun, part sun or shade.
