

Skinner's Banana Shrub

*Michelia
skinneriana*

A far superior Banana Shrub to the usual variety! A strong growing, evergreen large shrub or small tree with very attractive dark, glossy green foliage & unique banana yellow flowers with a wonderful banana scent! Blooms in spring & will repeat bloom sometimes in summer & fall. Can be sheared into a hedge, grown as a screen, used as an accent shrub, or trained as a small tree possibly 10'-12' tall. Will grow well in under story conditions or in full sun.
