

Nova Penta

Penta lanceolata 'Nova'

Look at the size of this magnificent penta!! Nova is the biggest, old-fashioned penta on the market – bigger foliage, bigger flowers and a bigger impact in the garden. Huge rich pink flower clusters cover Nova spring through frost. **A hummingbird and butterfly magnet.** A great statement plant for containers or in the garden. Can reach 4'x3'. Root hardy. Sun or partial sun. Well draining soil is a must.
