

Pink Texas Skullcap

Scutellaria suffrutescans

A wonderful, low growing **native** that loves the heat! Blooms all summer long when other plants are pooped out! Give it good drainage and it will reward you year after year. One of our original skullcaps in the Treesearch garden is over 25 years old. 1' x 1'. Forms small mounds of tiny foliage that is smothered with small snapdragon like flowers spring to fall in heavy bloom cycles. Can be either dark pink or soft pink.
