Lord Byron Viburnum

V. obovatum x V. rufidulum

A fabulous new hybrid Viburnum between Walter's Viburnum and the native Rusty Blackhaw Viburnum. Vigorous grower with an upright tree form. Small foliage and a spectacular display of clusters of white flowers in February-March. Deciduous. Best used as a small ornamental tree or can be used as a fast growing screen. Averages 12'-18'. Full sun or light shade. **Birds.**
