

# Eastern Bluestar

## *Amsonia tabernaemontana*

This beautiful heirloom perennial will form a 3' x 3' clump of graceful, erect stems with willow-like leaves. Dense terminal clusters of sky-blue flowers are produced in the spring. The fall color of this plant is a beautiful rich yellow-gold.

Cut back by 1/3 after blooming to encourage fullness and good form. Morning sun to part shade, moist well-drained soils.
