

AQUAPRO-MB

A SYNERGISTIC PROBIOTIC BLEND TO COMBAT THE WATER & SOIL POLLUTANTS.

- **Aquapro-MB** is a synergistic blend of various microorganisms and enzymes specially designed for degrading aquatic organic waste in ponds for aquaculture of Shrimps, Prawns & fish.
- The microorganisms and enzymes in **Aquapro-MB** rapidly degrade aquatic organic waste, prevent building up to toxic condition and improve the pond environment.
- In addition **Aquapro-MB** increases production yields, improves pond water quality, ensure good balance of algae and color in ponds.

HOW IT WORKS : Aquapro- MB contains a mixture of various enzymes, which immediately starts to degrade the aquatic organic waste. The nutrients present in Aquapro -MB help to create a medium for the micro-organism to produce additional enzymes, which constantly break down the organic waste.

- BENEFITS**
- Degrades a variety of aquatic organic waste and excess food
 - Reduces, Turbidity, Sludge, Build up and organic sediment in ponds
 - Reduces and controls foul odor
 - Reduces algae, blanket weed and duck weed
 - Ensures optimal balance of phytoplankton & natural beneficial bacterial
 - Helps in ammonia removal when used with nitrifying probiotics
 - Improves overall health & survival rates of shrimps, prawns , fishes, etc

Packaging : Aquapro-MB is available in 1 Kg. (Physical Form: Powder, Bacteria Count 5 Billion CFU/g)

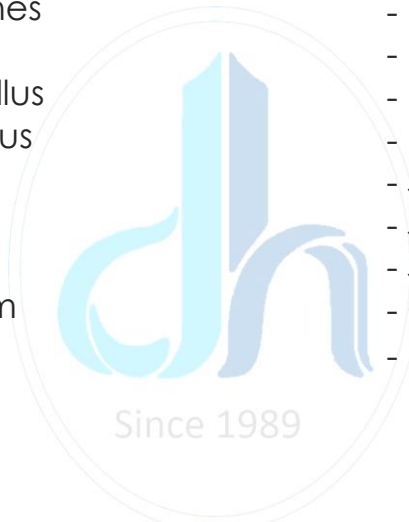

- *WE CURRENTLY EXPORT TO: SOUTH EAST ASIA, EUROPE, SOUTH AMERICA & MIDDLE EAST.*

Probiotic for Human Healthcare

CUSTOMIZED BLEND IN BULK, FOR DIRECT FILLING IN SACHETS, CAPSULES & OTHER FORMS.

- Lactobacillus Sporogenes Normal
- Lactobacillus Sporogenes Microencapsulated
- Lactobacillus Acidophilus
- Lactobacillus Rhamnosus
- Lactobacillus Lactis
- Lactobacillus Reuterii
- Lactobacillus Casei
- Lactobacillus Plantarum
- Lactobacillus Gasseri

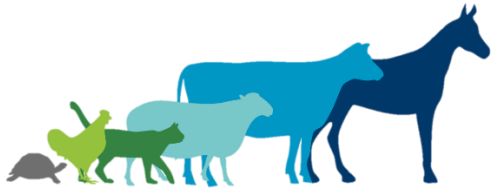

- Bifidobacterium Bifidum
- Bifidobacterium Infantis
- Bifidobacterium Subtilis
- Bacillus Subtilis
- Bacillus Mesentericus
- Streptococcus Thermophilus
- Saccharomyces Boulardii
- Streptococcus Faecalis
- Clostridium Butyricum
- Bifidobacterium Longum

USFDA & EU - APPROVED FACILITY TO ENSURE PROPER GROWTH OF BACTERIA

100 PROBIOTIC CULTURES ARE AVAILABLE AS INDIVIDUAL STRAINS THAT CAN BE BLENDED AT CUSTOMER'S END AS WELL AS CUSTOM-MADE BLENDS IN READY TO FILL FORM.

READY-MADE FORMS CAPSULES OF SIZE 0, 1 & 2 OR SACHETS OF SIZE 1GM, 5GM UPTO 1000GM.

- *WE CURRENTLY EXPORT TO: SOUTH EAST ASIA, EUROPE, SOUTH AMERICA & MIDDLE EAST.*

Probiotic Strains

Available for Poultry, Cattle & Pet Animals

CUSTOMIZED BLEND IN BULK, FOR DIRECT FILLING IN SACHETS, CAPSULES & OTHER FORMS.

- Lactobacillus Sporogenes (LAB) Normal
- Lactobacillus Sporogenes (LAB) Microencapsulated
- Bacillus Subtilis
- Bacillus Licheniformis
- Bacillus Megaterium
- Bacillus Pumilis
- Bacillus Polymyxa
- Bacillus Cereus
- Bacillus Amyloliquefaciens
- Pseudomonas Denitrificans
- Nitrosomonas
- Nitrobacter
- Saccharomyces Cerevisiae
- Lactobacillus Acidophilus
- Lactobacillus Plantarum
- Lactobacillus Casei
- Enterococcus Faecium
- Saccharomyces Boulardii
- Bifidobacterium Bifidum
- Mannan Oligosaccharides (MOS)
- Mannan Oligosaccharides (Water Soluble)
- Fructo Oligosaccharides (FOS)
- Inactive dried yeast
- Bypass Fat
- Yeast Extract Powder

CUSTOMIZED BLENDS FOR POULTRY, CATTLE, AQUA, PET ANIMALS & SILAGE.

100 PROBIOTIC CULTURES ARE AVAILABLE AS INDIVIDUAL STRAINS THAT CAN BE BLENDED AT CUSTOMER'S END AS WELL AS CUSTOM-MADE BLENDS IN READY TO FILL FORM.

READY-MADE FORMS CAPSULES OF SIZE 0, 1 & 2 OR SACHETS OF SIZE 1GM, 5GM UPTO 1000GM.

- WE CURRENTLY EXPORT TO: SOUTH EAST ASIA, EUROPE, SOUTH AMERICA & MIDDLE EAST.

Cattle

DEPSONS HEALTHCARE CO. (INDIA)

BETTER FEED SUPPLEMENT FORMULA | (Dosage: 200g-MT of Feed) | Pkg: 200gm Pouches

Benefits:

- Higher density of rearing possible
- No expenditure on litter
- No incidences of coccidiosis
- Reduced cannibalism
- Cleaning and disinfection easier
- Better growth and feed efficiency

Each 1000 gm contains: (Feed Sup.)

- | | |
|----------------------|-----------------|
| - L acidophilus | - Vitamin A |
| - L plantarum | - Vitamin D3 |
| - L casei | - Vitamin E |
| - St Faecium | - Vitamin B12 |
| - P frudenreichii | - Niacin |
| - Aspergillus Oryzae | - Ascorbic Acid |
| - B longum | - Choline |
| - B subtilis | - Protease |
| - L sporogenes | - Amylase |
| - S cerevisiae | - Hemicellulase |
| | - Cellulase |

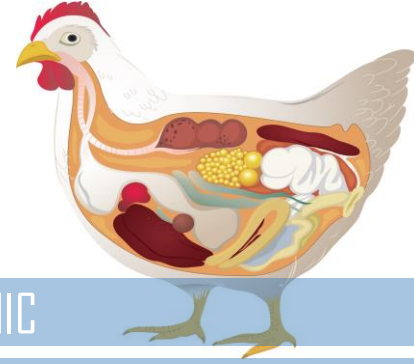

A UNIQUE FEED UTILIZATION FORMULA WHICH RESULTS IN BETTER FCR AND FEED EFFICIENCY.

- WE CURRENTLY EXPORT TO: SOUTH EAST ASIA, EUROPE, SOUTH AMERICA & MIDDLE EAST.

Liver Tonic

DEPSONS HEALTHCARE CO. (INDIA)

POWERFUL CATTLE & POULTRY LIVER TONIC

DOSAGE: BROILERS – 10ML PER 100 BIRDS PER DAY DURING 2ND WEEK AND 4TH WEEK | Pkg: 5 Litre

DOSAGE: BREEDERS – 20ML PER 100 BIRDS PER DAY FOR A WEEK IN A MONTH | Pkg: 5 Litre

Benefits:

- Stimulates regeneration of hepatic cell
- Stimulates liver function
- Boosts the immunity of the birds
- Improves over all liver function
- Improves Production and hatchability
- During toxin outbreak, helps in detoxification of toxins in liver
- Effective in fatty liver syndrome

Each 1000 gm contains:

- Vitamin B12
- Inositol
- Yeast Extract
- Niacin
- Choline Chloride
- Vitamin B1
- DL Panthenol
- Extract of *Andrographis Paniculata*
- Extract of *Phyllanthus Niruri*

A powerful cattle & poultry liver tonic for quick recovery of hepatic disorders & disease. Liver is a vital organ involved in metabolism, storage secretion, detoxification and protection. Being the central organ of metabolism, liver is always subjected to damage of various kinds. This tailor made products is exclusively designed to protect liver and boost immunity which is liver stimulants and protectants and supplemented to support liver in detoxification and to improve the structural and functional integrity of liver cells.

- WE CURRENTLY EXPORT TO: SOUTH EAST ASIA, EUROPE, SOUTH AMERICA & MIDDLE EAST.

Acidifier through water

DEPSONS HEALTHCARE CO. (INDIA)

ACIDIFIER THROUGH WATER | (Dosage: 200mL-2KLt of Water) | Pkg: 1, 5, and 30 Ltr Container

Benefits:

- It creates acidic condition in feed which controls the growth and multiplication of harmful pathogens
- Improves the appetizing of feed and which helps in improving feed intake
- Reduces the pathogen load and thereby reduces the incidences of salmonellosis
- Nutrient absorption level will be increased due to better digestion
- Improvement in the gut health

Each 1000 ml contains:

- **Phosphoric Acid**
- **Lactic Acid**
- **Citric Acid**
- **Acetic Acid**
- **Formic Acid**
- **Propionic Acid**
- **Copper**

A LIQUID ACIDIFIER FOR POULTRY IS BASED ON A SYNERGISTIC COMBINATION OF ORGANIC ACIDS, INORGANIC ACID, COPPER, AND BIOFLAVONOIDS. THE ACID REDUCES PH OF THE WATER AND THEREBY CONTROLS PATHOGEN LOAD IN DRINKING WATER. PRESENCES OF COPPER ENHANCES THE PERFORMANCE OF THE PRODUCT IN TERMS OF IN MOLD INHIBITION.

- WE CURRENTLY EXPORT TO: SOUTH EAST ASIA, EUROPE, SOUTH AMERICA & MIDDLE EAST.

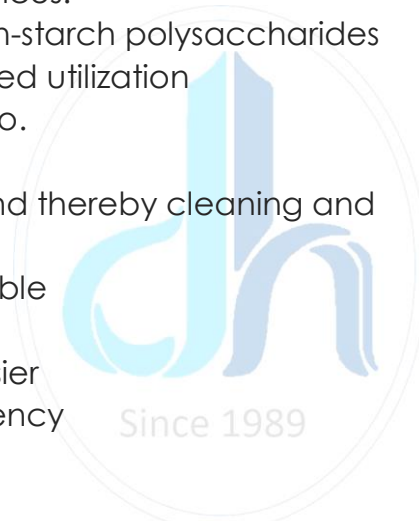

Poultry

DEPSONS HEALTHCARE CO. (INDIA)

BETTER FEED UTILIZATION FORMULA | (Dosage: 200g-2KL of Water) | Packing: 200 gm Pouches

Benefits:

- Probiotics help to stabilize the gut microflora & help in minimizing the disease incidences.
- Helps in breaking down of non-starch polysaccharides and there by ensure better feed utilization
- Improves feed conversion ratio.
- Reduces ammonia excretion
- Reduces wet litter problem and thereby cleaning and disinfection made easier.
- Higher density of rearing possible
- Reduced cannibalism
- Cleaning and disinfection easier
- Better growth and feed efficiency

Each 1000 gm contains:

- **Amylase**
- **Alpha-Galactosidase**
- **Cellulase**
- **Glucanase**
- **Lipase**
- **Pectinase**
- **Protease**
- **Xylanase**
- **B.Sporogenes**
- **B.Subtilis**
- **B.Licheniformis**
- **B.Polymyxa**
- **B.Megaterium**

UNIQUE COMBINATION OF PROBIOTICS & ENZYMES WHICH HELP IN IMPROVING FCR AND EFFICIENCY.

ENZYMES HELP IN BREAKING INDIGESTIBLE POLYSACCHARIDES PRESENT IN THE DIET.

- WE CURRENTLY EXPORT TO: SOUTH EAST ASIA, EUROPE, SOUTH AMERICA & MIDDLE EAST.

Poultry

DEPSONS HEALTHCARE CO. (INDIA)

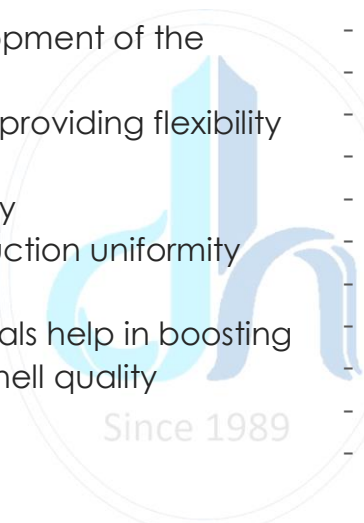

GROWTH PROMOTER (Feed Supplement) | (Dosage: 100g-MT of Feed) | Packing: 100 gm Pouches

Benefits:

- Probiotics strains inhibit the pathogenic bacteria and gut health is maintained
- Probiotics influence the development of the immune response
- Controlling feed costs through providing flexibility in feed formula
- Help enhancing feed efficiency
- Helps enhancing flock & production uniformity
- Helps enhancing litter quality
- Highly available forms of minerals help in boosting immunity and improving egg shell quality

Each 1000 gm contains: (Feed Sup.)

- | | |
|----------------------|-----------------|
| - L acidophilus | - Vitamin A |
| - L rhamnosus | - Vitamin D3 |
| - L casei | - Vitamin E |
| - L salivarius | - Vitamin B12 |
| - L Lactics | - Niacin |
| - L Sporogenes | - Choline |
| - B.Subtilis | - Ascorbic Acid |
| - B.Licheniformis | - Calcium |
| - B Animalis | - Phosphorus |
| - St Faecium | - Sodium |
| - E faecium | - Selenium |
| - P acidilacti | - Zinc & Iron |
| - Aspergillus Oryzae | - Magnesium |

UNIQUE BLEND OF PROBIOTICS WITH VITAMINS AND MINERALS. PRODUCT PLAYS VITAL ROLE IN GROWTH, PERFORMANCE AND IMMUNE RESPONSE. CHELATED MINERALS PRESENT IN THE PRODUCT HAVE HIGHER BIOAVAILABILITY WHEN COMPARED TO INORGANIC TRACE MINERALS.

- WE CURRENTLY EXPORT TO: SOUTH EAST ASIA, EUROPE, SOUTH AMERICA & MIDDLE EAST.

Poultry

DEPSONS HEALTHCARE CO. (INDIA)

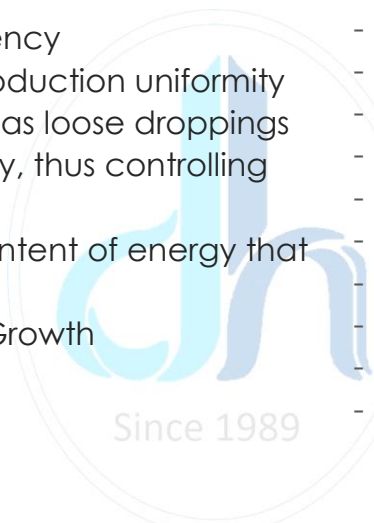

GROWTH PROMOTER (Water Supplement) | (Dosage: 100g-2Klt of Water) | Pkg: 100gm Pouches

Benefits:

- Controlling feed costs through providing flexibility in feed formula
- Help in enhancing feed efficiency
- Helps in enhancing flock & production uniformity
- Help in reducing sticky as well as loose droppings
- Helps in enhancing litter quality, thus controlling risks of eggs , breast blister
- Helps in enhancing dietary content of energy that can be metabolized
- Helps in enhancing FCR and Growth

Each 1000 gm contains: (Water Sup.)

- | | |
|-------------------|--------------------|
| - L acidophilus | - Vitamin A |
| - L rhamnosus | - Vitamin K |
| - L casei | - Vitamin D (AD3) |
| - L salivarius | - Vitamin E |
| - L Lactics | - Vitamin B12 |
| - L Sporogenes | - Vitamin C |
| - B.Subtilis | - Vitamin B6 |
| - B.Licheniformis | - Vitamin B2 |
| - B Animalis | - Choline Chloride |
| - St Faecium | - P acidilacti |
| - E faecium | - Aspergillus |
| - B bifidum | Oryzae |

AN UNIQUE COMBINATION OF CAREFULLY CHOSEN PROBIOTICS AND VITAMINS TO GIVE SYMBIOTIC EFFECT TO THE HOST BODY.

- WE CURRENTLY EXPORT TO: SOUTH EAST ASIA, EUROPE, SOUTH AMERICA & MIDDLE EAST.
