P R E F A C E.

IN presenting to the people of Danbury our Directory for 1885-6 we think we can fairly claim that it is far superior, in every respect, to any of our former issues, and in general appearance is not surpassed by any directory published in Connecticut or New England. Neither labor nor expense has been spared to have the book as nearly perfect as possible; but in a work of this nature errors are almost unavoidable, the blame for which should not all rest with us, as information is not always given correctly. With this number we furnish a complete business directory, which feature will be continued in future issues. With the rapid growth of your beautiful New England town, the importance of a faithfully compiled directory becomes more apparent, year by year, to business men and the public generally, and we feel encouraged, from the liberal support extended to us by the enterprising merchants and manufacturers of Danbury, to make improvements in each succeeding issue, and such additions to the work as shall be generally acceptable to the people, and in keeping with the prominent position which Danbury occupies among the prosperous and enterprising towns of New England.

The public's obedient servant,

WANTON S. WEBB,

Compiler.
