

Welcome to My MD Hub Health Records

All your health records. Working together to guide your care.

01 — Start in one place

Begin your care journey in one simple place—no jumping between systems.

Purpose: My MD Hub combines health record access, status tracking, eligibility visibility, and secure sharing with Precision Stealth Workflow Intelligence.

Proof point: The system does not just hold records. It connects the patient to the services they still need.

Respectful market line: Don't bother trying to recreate this with disconnected tools. The value is in doing it all in one place, attached to the patient's ongoing care workflow.

Take action: See how records, eligibility, sharing, and service intelligence work together.

Visual card system

Use these six cards as the main webpage scroll. Keep each number, headline, screenshot frame, and caption style consistent so the process feels simple even when the underlying workflow is complex.

01 Claim Request

Start every claim from one controlled workflow, not a scattered set of portals.

The screenshot displays the MyMDHub website interface. At the top, there is a navigation bar with the MyMDHub logo and the tagline 'MyMDHub: Organize, and securely share individual health records.' Below the navigation bar, the main content area is divided into several sections. The first section is titled 'Welcome to MyMDHub' and includes a 'Get Started' button. The second section is titled 'Connect Your Records' and includes a 'Connect Your Records' button. The third section is titled 'Technical Specifications and Standards' and includes a 'View All' button. The fourth section is titled 'Platform Standards' and includes a 'View All' button. The fifth section is titled 'Access and Authentication' and includes a 'View All' button. The sixth section is titled 'User Control and Privacy' and includes a 'View All' button. The seventh section is titled 'Platform Integration' and includes a 'View All' button. The interface is clean and modern, with a blue and white color scheme.

02 — See what it means

Your records are explained clearly, so you understand what they mean for your care.

02

Record Result Summary

See the record result in context so the next service action is obvious.

The screenshot shows a web form titled "MCHN Medicare Eligibility Check". It includes sections for "Medicare Eligibility Check", "Other Payer Eligibility", and "Coverage Search". Below these sections is a table of "MEDI-CARE HEALTH PLANS" with columns for "Plan Name", "Premium", and "Out-of-Pocket". A "Service Coverage" table is also visible at the bottom.

Plan Name	Premium	Out-of-Pocket
Blue Cross Blue Shield of Michigan	\$1.00	\$1,000
Blue Cross Blue Shield of Michigan	\$1.00	\$1,000
Blue Cross Blue Shield of Michigan	\$1.00	\$1,000

Service	Coverage	Out-of-Pocket
Other	Original Plan	Out-of-Pocket
Medicare	Original Plan	Out-of-Pocket
Medicare	Health Support	Cost Share

03

Request to Share

Share only what is needed, with a clear purpose and a documented request.

The screenshot shows a "Medicare Records" interface with a list of records. Each record includes a date, a description, and buttons for "View" and "View details".

03 — Share only what's needed

Only the right information is shared—with the right people—at the right time.

04

Shared Records Status

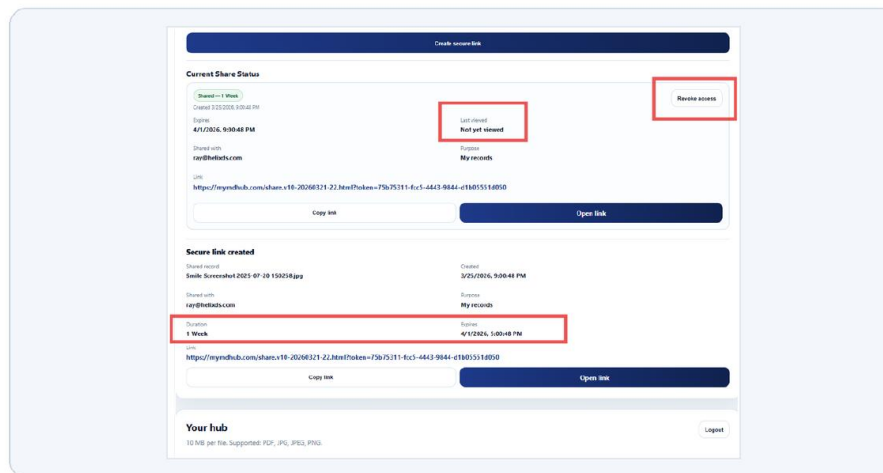

Track what was shared, when it moved, and what still needs attention.

05

Eligibility Request

Check eligibility from the same workflow that is driving medically necessary care.

04 — Track everything

Know what's been sent, what's been received, and what still needs attention.

06

Eligibility Detail

Turn eligibility details into usable intelligence for service continuity.

Service	Status
Part A	true
Part B	true
Pharmacy	
Office Visit	
DME	
Home Health	
Urgent Care	
QMB	true

- CCM: Possible (DME)**
Consumer can check MyMDHub (x) to confirm if this service has already been provided and paid by Medicare for the relevant period.
- Secondary: true**

What this means

1. Solutions

Records alone are passive. Disconnected tools create work instead of reducing it.

2. My MD Hub

My MD Hub is the single operating layer for records, requests, eligibility, sharing, and status.

3. Scroll the six cards

Use the numbered cards above as a clean visual proof sequence.

4. The intelligence layer

Reinforce that Precision Stealth Workflow Intelligence connects each patient to ongoing medically necessary services.
