Simplifying Division

To make division easier use the multiplication tables that are easy to use. Start by utilizing the 10s and 2s tables as much as possible. There is a little more addition but its easy addition

```
23 | 567
     230        10
     337
     230        10
     107
      46        2
      61
      46        2
      15
              _____
              24 R15
```
