

BREATHE BREATHE BREATHE

Written by James W. Kennedy for Michelle L. Kennedy and Aislinn L. Kennedy, his wonderful daughters, and for their
10 to the 4th power level of descendants...

**AIR SAFE TO BREATHE IS THE FIRST NATURAL HUMAN
RIGHT!**

**THERE IS NO RIGHT TO POLLUTE JUST BECAUSE A
PRODUCT IS PRODUCED AND/OR A SERVICE IS PROVIDED.¹**

Let us eliminate the experience of standing at a street
corner in a busy city waiting for a traffic light to turn green
and being forced to hold your breath because of high levels
of diesel and gas emissions and then having to run across
the street to get to somewhere where you can breathe.

Let us eliminate **DEFENSIVE BREATHING!!!**

**AIR POLLUTION IS NOT A VICTIMLESS CRIME!
AIR POLLUTION IS A CONTINUING CRIME!**

CO2 RIPPLES THRU TIME...

We all are integrally connected, and dependent on each
other... **Change starts with me, you, all of us....**

The TIME to CHANGE IS NOW...

NOW is the time to use NEW EYES...
NOW IS THE TIME FOR A NEW THINK

¹ The social and economic benefits of a product/service must be balanced after deducting all present and future medical/environmental reclamation costs. The true cost must be calculated at the beginning of the life cycle with ongoing environmental reclamation steps being undertaken from the start borne by the manufacturer and/or service provider. Beware: "Improved means to an unimproved end." Henry David Thoreau (Walden Pond).

WE CAN'T WAIT....

**STRETCH YOUR CONSCIOUSNESS BEYOND YOUR
COMFORT ZONE – ACT WITH CO2
CONSCIOUSNESS. ALL OF US MUST DEVELOP,
REFINE AND IMPLEMENT CO2 CONSCIOUSNESS.**

**WE ALL ARE SHARING THE PUBLIC GLOBAL AIR
SUPPLY WITH MOST COMPLEX FORMS OF LIFE...**

**The Threat of the Legacy of Atmospheric
Anthropogenic Carbon Dioxide must be reversed**

CDR: Carbon Dioxide Removal is a needed step

**LET'S DEVELOP AND IMPLEMENT A
COORDINATED MULTI-DISCIPLINE GLOBAL
RESPONSE**

**The FORESEEABLE CHANGES OF INACTION
are as GREAT as those that followed the impact of the
CHICXULUB ASTEROID 66 MILLION YEARS AGO.**

(The Day the Dinosaurs Died. The fifth mass extinction.)

**WE ALL MUST CONFORM OUR BEHAVIOUR TO
SAFEGUARD AND PROTECT the QUALITY OF AIR
FOR ALL IN THE PRESENT AND FOR THOSE IN THE
FUTURE**

**Let's share the Biosphere with ten times ten generations of
our *Grandchildren*...**

LET'S BE WISE GLOBAL CITIZENS.

SUPPORT FRIENDS 4 CLEAN AIR!

BREATHE * BREATHE* BREATHE *

Good Behavior is Contagious...

The CAD drawings for the Urban Air Scrubber are being completed now. CAD drawings for the Industrial Air Scrubber will be started soon. Interested and talented individuals, CAD people, mechanical and chemical engineers, media and businesspeople who are interested are needed. There is a 3rd Air Scrubber/Air Cooler which can break down the backwashed water and/or ambient air with greenhouse gases, microplastics, and PFAS in a non-toxic manner plus cooled. There are other concepts for Air Scrubbers to “fit” other environments as well. (These devices are just the first generation and with the help of others they will just get better.) Intellectual rights may be assigned to Friends4CleanAir.com with a reservation of an equitable percentage to the “Founding Team”.
