

Stud Dog Contract

The below is a binding contract between Marzolf X Kennel, LLC and the client. The breeding will take place between the following dogs;

Sire _____

Dam _____

The stud fee is \$2,000 plus 4.2% South Dakota State Sales Tax payable to Marzolf X Kennel. Marzolf X Kennel guarantees a minimum of 2 live pups at time of birth, if a breeding either doesn't take or doesn't produce a minimum of 2 live pups a second breeding will be attempted without an additional stud fee. After the second breeding attempt, no matter the results Marzolf X Kennel will have completed their commitment to the contract. If no pups are produced from either breeding the stud fee will be forfeited for the; time investment; and risk for Marzolf X Kennel. If less than two pups are produced in the breeding's, after the second attempt the stud fee will be forfeited by below signed client.

All females must provide proof and be up to date on;

Rabies

Bordetella

Negative Brucellosis Test

Hip Certification (PENN Hip or OFA)

It is highly recommended that all in season females have progesterone tests completed to assist in properly timed breeding. This is completed at the dam owners expense, Marzolf X Kennel can complete this at the buyer's expense which will include; testing fee, .55cents a mile for travel and a \$20 convenience fee for time and travel. Marzolf X Kennel must be contacted within 48 hours of a female coming into season to prepare for the breeding. All females must be delivered by owner no later than the 11th day from first blood and must be picked up within 48 hours of last standing tie. If owner does not complete progesterone testing, Marzolf X Kennel will attempt in good faith to ensure the breeding is covered, but cannot guarantee timing without testing. We will attempt natural cover, we will attempt 3 live ties with 36 hours between each tie, but if female refuses to stand or becomes too violent creating a risk to the above stud than we will complete side by side coverage by a licensed and certified veterinarian at the damns owners' expense. Marzolf X Kennel will notify the dam owner when a tie takes place to include a photo confirmation and length of tie.

First Tie:	Second Tie:	Third Tie:
Date:	Date:	Date:
Time:	Time:	Time:
Length:	Length:	Length:

Gestation of dogs generally lasts between 59-63 days. Marzolf X Kennel does not assist in whelping, marketing, listing, selling of any breeding's. Once puppies have been whelped it is the owner's responsibility to contact Marzolf X Kennel within 48 hours to notify of litter details. Litter registration paperwork must be submitted to Marzolf X Kennel within 21 days of whelping of the litter. Dam owner will in good faith ensure dam and all puppies receive the proper care and maintenance required and will ensure all puppies are placed in quality homes. If puppies are not whelped in a clean indoor temperature controlled environment and/or do not receive proper licensed veterinarian care, then this contract is void.
