## 2021 COMMENTS AND REMINDERS

**COMPETITIVE DRILL:** Motor vehicles are to inspected prior to Competitive Drill as they are to be operated during the drill. No miscellaneous items are to be added or removed between inspection and riding the drill.

A stop line will be painted 20' past the exit gate on each Competitive Drill Field. The lead member of each Unit must come to a complete stop before crossing the line. Any Unit not coming to a complete stop will be disqualified.

Field size: 120' x 240'

Discussion was held on the clarification for flag vehicles and the following was determined: A flag vehicle will be allowed in Competitive Drill. The flag vehicle will enter the drill field and come to a complete stop in a position on the field so as

not to interfere with the drill. The flag vehicle shall remain in this position until the drill is complete, then exit the field. Only one flag vehicle will be allowed.

If a vehicle becomes disabled on the Competitive Drill Field, the driver should move the vehicle to a safe location on the field so as not to interfere with the remainder of the drill, or stay seated in the vehicle.

**SHOW CAR/SHOW BIKE** In the past, occasionally a judge would score an item that was not on the score sheet. After a Unit has completed their inspection, the sheets will be collected and a committee will review them to make sure that a judge did not add any additional items that are not on the sheet. If they find any additional deductions that are not allowed, they will make that correction and bring this item to the judge's attention.

**COMPETITION REGISTRATION:** In the past there have been several Units that have waited until after the competition registration deadline to register for competition. No Unit will be penalized any point deductions for late registration, but will be charged a \$25.00 registration fee for each competition entered. The fee must be paid prior to any time assigned to the Unit.

Rule # 11 of the Obstacle Course has been modified. The rule previously stated that there will be a "safety stop line" placed 36" after the stop line in which the rider must stop the front wheel of his vehicle or be disqualified. The 36" designation was removed and a stop line will still exist. The rider must come to a complete stop before crossing the line or be disqualified.
