

**User's Guide To  
RADIO DAVE'S HALLOWEEN HITS**

Happy Halloween! Here is a dungeon full of demented discs my groove yard ghouls have scared up for your listening displeasure. This is truly a collection to die for! In addition to this frightening compilation of twisted tunes and unearthly delights, you'll also enjoy some especially ghastly goodies - "trailers" and radio commercials advertising many of the most horrible horror movies of all time.

Some of these undead ditties haunted **Billboard Magazine's** hit music charts, and these are designated by their highest chart position and year in the tombstone information following their listing. Most of these mausoleum melodies have been raised from their vinyl resting places for the first time in decades of Halloweens, and you don't have a ghost of a chance of finding them anywhere else but here.

So... wrap some garlic around your sound system, and don't conjure up these tunes in the dark...or while you're all alone! Listen at your own risk.

Yours cruelly,

Radio Dave
