POLYFIX DCM

POsterior LaminectomyY with FIXation for MultiLevel Degenerative Cervical Myelopathy

WELCOME TO THE 19TH EDITION OF THE POLYFIX-DCM NEWSLETTER!

TOTAL PATIENTS:

102

A big Thank You to all teams recruiting as part of POLYFIX!
We would like to welcome the team in Norfolk and Norwich and Salisbury who have opened this month!

CRFs Needed! For team still using paper:
Please send us all CRFs completed within your unit so far! We need the data for review and upload in our database.

Images Awaited! We are waiting to receive the pre-op XRs and MRIs as part of the trial for us to be able to complete our central assessments! How to do it? -->all detailed in the trial site manual or simply get in touch!

You have MACRO access-->even better, please upload all data promptly, and we can keep paper light!

We have opened 23 sites, and now 102 patients enrolled into the POLYFIX DCM trial, thanks to the amazing work of all site teams!

We are now almost halfway through the recruitment period, and we currently need to catch up to our NIHR-given targets!

Our big ask in the first few months of the 2024 is to to have at least 2 patients per site in the next 2-to 3 months, which will bring our recruitment figures back on track!

We have hit the base camps of Everest, and now the big climb is on!
The bigger target now is 396 total participants, 294 to go!

Mark Kotter and Ben Davies

SITES OPENED 23

SITES IN SETUP

THE BIG ASK!

1. PRE-OP MJOA - IT IS VITAL FOR US TO KNOW WHEN THE SURGERY FOR YOUR RECRUITS IS! PLEASE KEEP US IN THE LOOP, AS WE NEED TO CALL THEM BEFORE THEY ARE OPERATED

2. MOVEMED -PLEASE CONFIRM IF THE PATIENT WANTS TO BE PART OF MOVEMED. WE NEED THEIR EMAIL AND MOBILE NUMBER.

NO FURTHER INVOLVEMENT FROM YOU IS NEEDED. ONCE YOU LET US KNOW, WE WILL SEND THE PATIENT INSTRUCTIONS HOW TO DOWNLOAD THE APP.MORE INFORMATION -[HTTPS://POLYFIX-DCM.COM/MOVEMED-SUBSIDY](https://polyfix-dcm.com/movemed-subsidy)

3. MACRO CRF COMPLETION - TEAMS PLEASE COMPLETE YOUR ONLINE DATA WITHIN TWO WEEKS OF VISIT IF YOU ARE USING MACRO.

WHAT CAN YOU DO TO SPEED UP POLYFIX?

CC: PAULA.KARECLAS1@NHS.NET & SAIMA.SIDDIQUI4@NHS.NET

DEAR R&D

WHERE ARE WE UP TO WITH POLYFIX-DCM? THE TRIAL IS NOW UP AND RUNNING, AND RECRUITING ELSEWHERE

IT WOULD BE GREAT TO GET US ON-BOARD. I HAVE COPIED THE TRIAL'S MANAGER IN PAULA IN CASE THERE IS ANYTHING YOU NEED FROM THEM.

WE NEED YOU!

We need to ensure we keep up to speed with any new evidence that arises on the topic of polyfix as part of our trial conduct procedure. Thus, please let us know if you encounter any new evidence on the topic!

A good example is a Swedish Registry paper published last year references below:

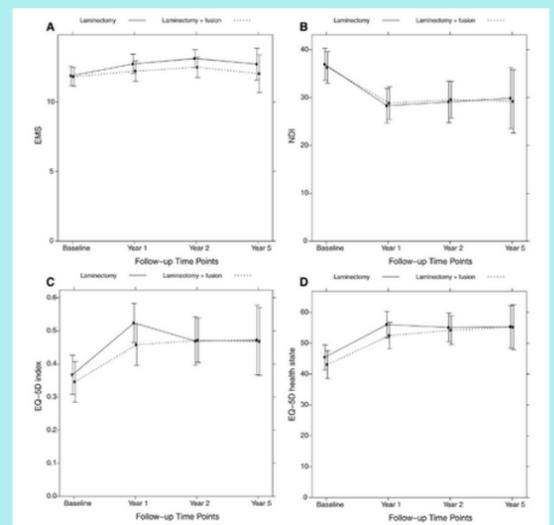

European Spine Journal
<https://doi.org/10.1007/s00586-021-07067-w>

ORIGINAL ARTICLE

Laminectomy alone versus laminectomy with fusion for degenerative cervical myelopathy: a long-term study of a national cohort

Eddie de Dios¹ · Robert F. Heary² · Lars Lindhagen³ · Anna MacDowall¹

Carer Quality of Life Subsidy

Are carers of our patients affected? Complete their Consent and send us their PID so that we can follow up with them centrally and answer this question in our substudy.

eCRF is now Live!

Most centres have access. Please let us know if you are still missed out!

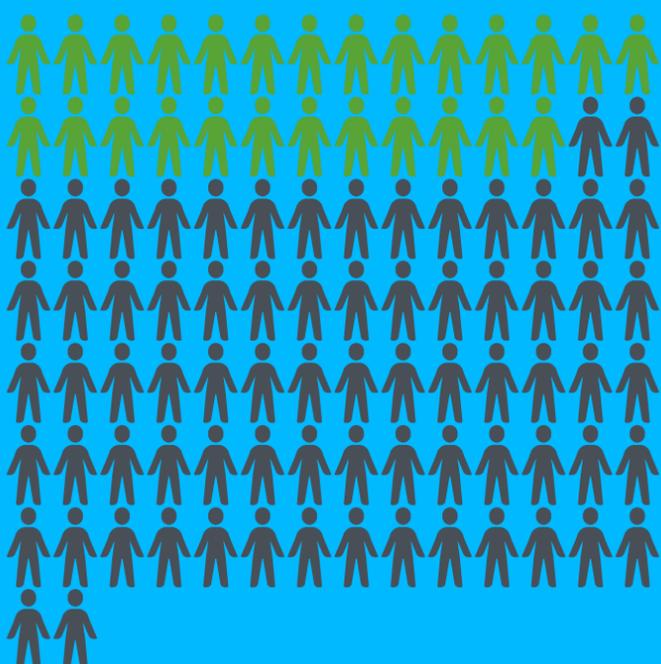

Please email

for training and set up
