

What is Piranha News? The Truth in Red

Piranha News (PN) is an upcoming site that inspires, educates, & awakens the masses. PN exposes the deception, lies, & narratives that have been choreographed for so long. We expose the leftist, elitist, wrong ideologies, schemes, & corruption with evidence. These people & their actions lead to such courses that require them to remain hidden in shadow, censor information, & such things not limited to death. After uncovering & shining the light in the darkness, closed doors are now opened showing the truth. *"We the People"*¹ can be active & *"a well-informed citizenry"*² to govern our nation in a moral & proper manner to *"bring us closer to that shining city upon a hill."*³

PN follows the 5W's & h (who, what, where, when, why & how) the basic principles of journalism. We created a {visual structure} to help members to tell the difference beyond the headlines, information & details outlined. Information can be great but being able to decipher what is not being said is the ultimate challenge in the battle of propaganda & situational awareness.

{PN- 3D visual} has the colors blue, red, & yellow. Blue represents the leftist, corruption, & unmoral principles. Red represents the truth, trusted sources, & moral principles. Yellow will be used to represent a neutral party, undecided group ideas & highlighted points of focus. Another bearing is the left/right approach similar to the false/true, wrong/right, problem/solution dichotomous. Language, terminology & symbolism are used as 2- edge swords. The main weapons against grey matter on the battlefield historically.

Piranha News (PN) Black & White Logo

PN takes history to another level. Some may think it is boring from their viewpoint because they are unable to capture the twists, turns, & betrayal that makes it interesting. Using technology, we can look back in time, live in the present, & project the future events bringing into focus the full point of view for life. This technique unravels the knots of confusion in the thread of time to show the big agenda for the Americans & others around the world trapped in the matrix. Propaganda is used to "obliterate their own understanding of their own history."⁴

It is important to educate yourself & to bring forth awareness to others to prevent the American dream & it's ideas of patriotism & the fear of God's eternal judgement. Free people become captured & enslaved "when good men do nothing"⁵ & "fear their government."⁶

Stated below, as a school of piranhas (strength is in numbers) to use our skills, mouths, social outlets, groups, organizations to become predators to expose, remove, & oppose the leftist/corruption agendas from being fulfilled.

Alone, we can do so little; together, we can do so much." -Helen Keller
