

EBplace: Managing Benefits Globally

PZ GenXcis Management Consulting Ltd.

June 2021

Why EBplace

International Corporations work together with **many** Benefits Insurers and Networks of Providers.

Managing international Benefits is a complex matter.

EBplace is the platform for Corporations to manage their Benefits in-house and through external Providers.

Why EBplace

EBplace aggregates internal Inputs coming from HR and Finance with the external Reports produced by your Carriers, Brokers, TPAs and Benefits Networks.

You have immediate Access to aggregated tailormade Statistics and Reports across multiple Providers, Countries and Years of Experience.

EBplace Pool Aggregator

First logical Step
towards a global
Benefits Management

EB Networks provide Pool Reports,
mostly electronically.

Corporations simplify Management and
Control of Multinational Pooling by use
of EBplace.

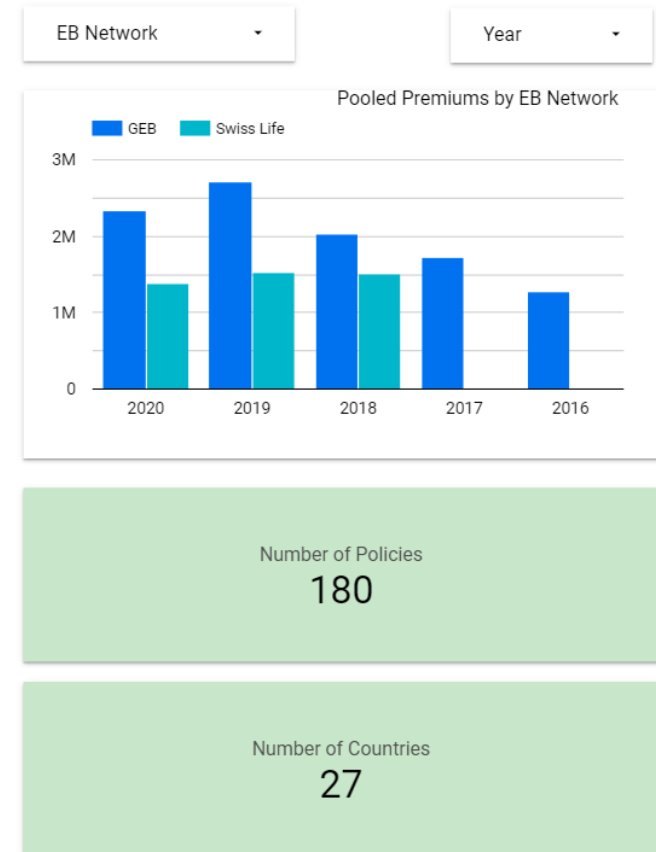

Clients up-load the Material Provided
by the Networks (Excel Files; PDF; etc.)
in EBplace.

EBplace captures the Data which was
uploaded, runs a Plausibility Check,
notifies Clients about Incongruencies
and stores all Information.

Managing Multinational Pooling through EBplace, intuitive and precise.

EBplace, Focus on Claims

Making parallel use of several Benefits Insurers and Networks creates challenges when analyzing claims data.

EBplace captures claims data and makes them **ready for analysis.**

In EBplace, clients **create their own** Statistics and Reports across multiple Providers, Countries and Years of Experience.

Monitor Claims at local and international Level, likewise.
