

A black Angus bull is the central focus, shown in profile facing left. It is standing in a field of tall, golden-brown grass. In the background, another black Angus bull is partially visible. The sky is a mix of light blue and orange, suggesting a sunset or sunrise. The overall scene is a rural, agricultural setting.

## **Information provided on each Bull:**

- Birth Date:** Date of birth of bull.
- Birth Wt.:** Actual birth weight, taken within 24 hrs. of birth.
- Age of Dam:** Age of dam in years at time of calf's birth.
- Adj 205D:** As calculated by the Canadian Angus Association from the calf's actual weight in October, with adjustments made for age of dam.
- Adj 365D:** As calculated by the Canadian Angus Association from the bull's feed gain multiplied by 165, plus the Adj 205D weight.

## **Actual Weights**

Actual Sale Weights to be taken March 20, 2018 with Scrotal Measurements and Sale Order to be available in printed form on Sale Day.

## **Explanation of EPD terms**

**EPD = Expected Progency Differences.**  
They are another tool used to select a bull and are predictions on how each bull rates against the rest of the breed.

- BW:** This value predicts the difference in avg. birth weight of a bull's calves compared to breed averages.
- WW:** Indicates the ability of a sire's calves to grow from birth to weaning (expressed in pounds).
- YW:** Growth from birth to yearling (expressed in pounds).
- Milk:** A reflectoin of the milking ability of a bull's daughter. It compares the difference in gain between birth to weaning of the bull's daughter's calves compared to the calves from daughters of other sires evaluated.

\*Tags in ears correspond to Lot's in Catalogue.

Welcome to the MBC Angus bull sale. We are extremely grateful for all of you that have made it out today. This year we are offering another fine group of bulls. As a family operation that has been around for 135 years we know just how important it is for these bulls to produce high quality animals for any ranch to build with. These bulls need to be able to get the job done with minimal expenses. In our operation we believe that to get high quality animals you need to have a cow herd that can range, breed back, calve with minimal assistance and keep flesh on forage. None of these cows are pampered. The purebred herd is run under the same conditions as the commercial herd on our place. The sires to all these bulls are also used in the commercial herd and are tried and proven. We have daughters in the commercial herd out of every sire represented in this sale, so we know what these bulls can do for your herd. We start calving the first of April and finish the end of May. We also sell all the steer calves from the commercial herd direct to a feedlot so we have years of feedlot data back on the steer calves and the repeated comment on them is how there is a very high percent that make the top grade and how extremely well they gain for the feed they are given. We believe in cattle that can flesh up and perform on minimal grain. They need to do the job on forage so we raise the bulls on a mainly forage diet.

Again this year we have a handful of bulls that are ET calves which have birth dates that are later in the year but they have been raised no differently than the majority of the bulls. These bulls are out of an amazing Elite cow and we know they will make phenomenal bulls.

The feeding program for this year had to start a little earlier than previous years due to weather. As calves they were wintered at home and fed 6lbs of barley pellets and free choice hay. As 2 year olds they are being fed 8.5lbs of barley pellets with free choice hay and will be on this until sale day.

These bulls are not leftovers what you see is the entire bull calf crop. Only the poor performers, poor conformation and bad temperament bulls have been taken out of this group. So you get the pick of the best bulls we have to offer.

Also we are going to offer a buyers choice lot for the winning bidder to come out to the ranch and pick their favorite heifer out of the 2017 calf crop.

A huge thanks to our past bull buyers for their support, it is very much appreciated. Enjoy the sale.

# Terms and Sale Conditions

**TERMS:** The terms of the sale are cash or cheque. Settlement is to be made immediately after the completion of the sale. The right of property shall not pass until after settlement is made. All settlements must be made with a clerk of sale before any cattle will be released. All monies in Canadian funds.

**DISPUTES:** in case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes is final.

**ANNOUNCEMENTS:** All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to any such announcements.

**PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as it is sold. Insurance is available if desired.

**CERTIFICATE OF REGISTRATION:** Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**ACCIDENTS:** Although every precaution will be taken to protect the safety and comfort of buyers, neither the manager, consignors, nor the auctioneer assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property.

**LIABILITIES:** all persons attend the sale at their own risk and sellers assume no liability, legal or otherwise, for any accidents occurring in, on, or about their premises.

**BREEDER'S GUARANTEE:** All animals sold have passed a semen evaluation. Any animal that has not proven itself a breeder within six months after date of sale may be returned to the seller at the buyer's expense, if in healthy condition. The seller reserves the privilege of trying for a period of six months to prove the animal a breeder. The seller, at his option, may replace the animal with another of equal quality in full settlement. Should this not be possible, an adjustment will be made to reflect the value of the bull in question or a credit will be given toward the purchase of another bull. Any complaints regarding breeding difficulties must be reported in writing by the buyer to the seller within the specified time above, and any animal returned must be free from disease and in good health.
