

Affordable Employee Benefit Options

The Reality...

- Business owners want to provide Medical coverage but the cost can be challenging. There are healthy options to attract and retain a skilled and productive workforce.
- One of the main questions from a potential candidate is “What are the Benefits?” You could answer ***“We offer benefits for Doctor consults, Hospital and Medical treatments, Dental, Vision, Disability, and Life insurance. We contribute \$ xx towards the cost and you choose the benefits that meet your needs.”***
- Employer contribution is not required but recommended. You can choose the Plan(s) or the dollar amount. (Ex. \$20/month per employee and they choose plans or pay a specific plan Example: Telemed plan @ \$10/month)

Benefit Plans & Services	Doctor Consults	Hospital Benefits	Behavioral Health	Medical Treatment Benefits	Dental Treatments	Vision Glasses/ Contacts	Disability Income	Permanent Life Insurance
Hospital Indemnity /GAP	✓	✓	✓	✓
