CHARLOTTE CHAMPIONS FOR LIFE

Weekly Newsletter

"Building Champions For Life!"

WHO IS CHARLOTTE CHAMPIONS

We are a partnership with parents, schools, faith-based institutions, and community agencies to provide an extraordinary enrichment experience for students through our Academic Leadership, Extended Day and Summer Enrichment Programs.

CHILD CHAMPION

Pictured below is child champion Zoe. Zoe has answered 432 questions this week. She loves to help other students. She motivated the other students to reach the 250 mark for IXL this week. She likes to play basketball and would like to go to Paris one day.

TESTIMONIALS

IXL is a learning based program that helps our scholars with reading and math instruction. The students have answered 45,326 questions, mastered 723 skills, and are proficient in 835 skills. Overall the scholars made progress in 717 skills. As of July 30th, some of the awards the students accomplished in IXL include achieving excellence in 10 sixth-grade math skills, achieving excellence in 50 first-grade language arts skills, and answering 40,000 questions on IXL.

MUST HAVES FOR FRIDAYS

This week students will be participating in the end of camo celebration!

- Wednesday
 - Turkey & Turkey Ham Hoagie
 - Baby Carrots w/ Ranch Dip
 - Apple Juice
 - Raisins
- Thursday
 - Chicken Salad w/ crackers
 - Fuitable Plus! Juice
 - Applesauce
 - Raisins
- Friday
 - Tortilla Chips w/ Cheese Dip & Salsa cup
 - Colby Cheese Stick
 - Fruit Juice
 - Strawberry Cup

SPECIAL GUEST

This week we are highlighting our very own Mr. Williams, or as the students call him, Coach D. He works mainly with the older students and is the son of the founders. He has a fatherly bond with the children and ensures they are reaching their potential. Mr. Williams does a lot behind the scenes. For instance, he plans and coordinates all the fun Friday trips. We thank Mr. Williams for his tough love and caring spirit.

WHAT ARE WE LEARNING?

Last week at our summer enrichment program, students had a blast creating and bringing out their creative side.

For fun Friday, students were surprised with the fire department and a local police officer. They were taught safety, toured a police car, and even the fire truck. They also cleaned up the local park as part of a community service project and collected six bags of trash.

On the more crafty side, students made bags out of shirts, designed picture frames, and created spiral graphs. Students also made a pie out of whip cream and Kool Aid.

In math, students did various tasks. They worked skip counting, finding equivalent ratios, counting, adding, subtracting, multiplying, and dividing.

Lastly, in language arts students worked with synonyms, facts and opinions, homophones, and syllables.
