For first time use, cleanse the bottle with water at least 3 times to rinse off natural minerals. Compatible with purified water and mild alkaline water.

- 1** Room Temperature Water: Pour directly into the bottle and leave for 3 minutes for dissolved hydrogen water to be generated.
- 2** For Warm Water: Pour half bottle of hot water and leave for 1 minute for dissolved hydrogen water to be generated. Then, pour room temperature water to fill it up and leave for another 2 minutes.
- 3** Hot Purified Water: Please do not over-tighten the bottle cap while using hot water in order to avoid high air pressure.
- 4** When Making Hot Tea: Basic ingredients eg. Green Tea, Pu-Er, Floral Petals, Goki, Red Dates. Avoid acidic-based ingredients.
- 5** Before Sleep: Dispose any liquid in the bottle to prevent auto generation of hydrogen or place the bottle upside down.

Gentle Reminders

- The CoreMinerals usually lasts for 90 days based on 2 litres of daily consumption with 350ml of purified water on each filling.
- The water from 7Wonders is a non-electrolytic water product and it is preferable to be consumed instantly. If unused, place the bottle upside down. Hydrogen level may last for a maximum of 2 hours once removed from the bottle.
- Please do not place the bottle at any high-temperature area for long hours if it contains liquid, e.g., inside the vehicle.
- Kindly cleanse well the glass funnel, core and rubber ring during replacement of the CoreMinerals to prevent leaking.
