

iTera - Purchase Processes

* accurate as at 14 June 2022 - please check the iTera business group for updates: <https://www.facebook.com/groups/211488541168056>

The CURRENT purchase process is:

- 1) Client gives you their details.
 - 2) Shipping is clarified (may be included or you may need to get a quote) - not all countries have stockists or stock.
 - 3) Client pays for iTeraCare wand/s and shipping.
 - 4) You complete the backend registration. This varies according to location - please follow the step-by-step instructions below.
 - 5) You send the client a confirmation email with their login details.
-

PURCHASE LINKS:

Please note that there are two personal purchase links on your Home page (after you login).

The TOPUP link is most commonly used and is the link referred to in this document.

The REFERRAL link is used for a more automated process, where you only need to do placement within 24 hours. It is new and still has some bugs to iron out. We may move to it once it is working better.

PLACEMENT:

There is a PLACEMENT diagram & instructions at the end of this document. Placement is important to your future earnings. Please check with your Sponsor before you finalise placement if you are unsure.

NAVIGATE:

The NAVIGATE function is at the bottom of the home page after login.

STEP 1: OBTAIN CLIENT DETAILS

If there is a local distributor (by country or region), shipping is mostly but not always included in the pricing below.

2. They'll see a page like this:

The screenshot displays the 'Top Up' interface for Inetwork International. At the top, there are language selection options: English, 简体中文, 繁體中文, and Melayu. The main form area is titled 'Top Up' and contains the following fields and controls:

- Member Username: LISAMURRAY
- Amount (USD / US Dollar): 325.00, with minus and plus buttons for adjustment.
- Remark: YOUR NAME
- Confirm Submit button
- Login link with an external link icon

Have the client complete their details:

1. Username is LISAMURRAY (ie the SPONSORS USERNAME.)
 2. Client adds the correct amount for the iTeraCare product / level in USD ***DO NOT pay for postage in here! *** You must tell them the amount.
 3. Under REMARKS, add client name, USERNAME and full postal address.

 5. They click Confirm. Once the green tick shows, client advises upline/sponsor that payment is made.
 7. Client makes shipping payment with the link you give them (if required.)
-

PART TWO - TO BE COMPLETED BY YOU AS THE SPONSOR.

*** DO THIS AFTER client has added money via your Top Up Link as per the above instructions. ***

BACKEND PROCESSES ARE LOCATION DEPENDENT:

PLEASE ENSURE YOU USE THE CORRECT PROCESS FOR THE STOCKIST YOU ARE USING!!

1. ***USA / Canada ONLY***
2. ***AUSTRALIA / NEW ZEALAND***
3. ***ALL COUNTRIES THAT DO NOT HAVE A CURRENT STOCKIST (IE VIA HQ INTERNATIONAL SHIPMENT)***
4. ***ALL COUNTRIES WITH A CURRENT STOCKIST, including EU.***

IF YOU ARE NOT SURE WHICH PROCESS TO USE, ASK YOUR UPLINE / SPONSOR.

Please don't 'experiment' in the system with the ordering process. It creates things that are not always easy to fix!

IF a client wants to buy only 2 products, they (you) need to create 2 accounts.

The system is currently set up for purchases of: 1 (silver), 3 (gold), 10 (diamond). If they don't want a second account (ie if not building a business). Set up another account for your dog or cat and place the second order in there. The system is built to reward multiple accounts. (Weird I know!) Listen to the weekly calls #7 & #8 for more on second / multiple accounts.

PLACEMENT:

iTeraCare Wands

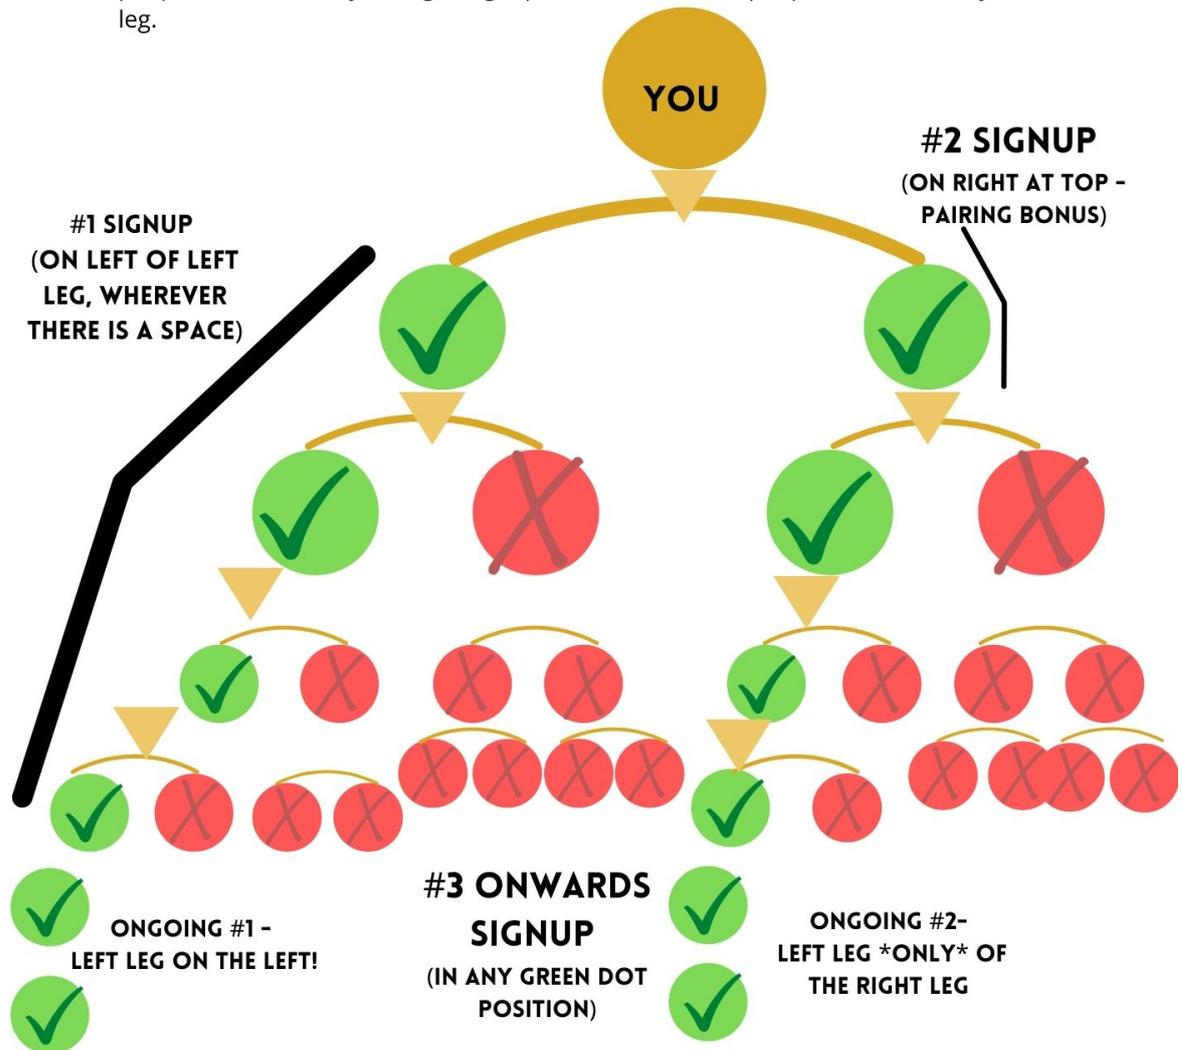

~ PLACEMENT ~

You add person #1 on your left leg - in the top position you can.

You add person #2 on your right leg - in the top position you can. (This creates a 'pair', for which you get a bonus of \$83 approx)

After that you choose where people go - you need to build both main legs ie the Left Leg of the Left Leg and the Left leg of the Right Leg. Never put people on the right after person #2 - if you do, someone else will get the pairing bonus - an expensive mistake!

If there are already plenty of people on the left leg then place people on the left leg of the right leg so that the number of people on the left leg and the number of people on the left leg of the right leg are balanced as closely as possible. This maximises the pairing bonus. You only need to put more people in your left leg once the number of people on the left of your right leg equals the number of people on the left of your left leg.

OTHER Q&A

DOES IT MATTER WHICH PACKAGE YOU BUY?

You will be paid different % based on the level you are at (ie Silver, Gold, Diamond). If you know you want more than one wand, purchase accordingly if you can.

You can upgrade your level. Speak to your Sponsor about this.

PAYING MAINTENANCE?

Maintenance is only to be paid if you are building a business. The first month is free and you will see a countdown on your home page for when its due. If you pay a year of maintenance upfront, you get most of it back in product redemption points instantly. Maintenance gives you all the extra pairing bonuses etc in the compensation plan (if you don't pay maintenance, you only receive the initial commission.)
