About the New Loft Version Design

The New Loft Version design by London Carpentry Specialists reimagines underutilised attic and loft spaces, transforming them into beautiful, functional areas that enhance both property value and homeowner lifestyle.

This innovative solution is perfect for homeowners seeking to expand their living spaces outside of the conventional designs, without the upheaval of a full extension or move.

The Incentivised Marketing Program: How It Works

Our incentivised marketing program is designed to reward merchants and FF&E suppliers who introduce homeowners to London Carpentry Specialists for the New Loft Version design. Here's how it works:

Step 1: Registration

Interested partners register with London Carpentry Specialists, providing business details and agreeing to the terms and conditions of the program.

Step 2: Introduction

Partners introduce potential homeowner clients to the New Loft Version design. This can be done face-to-face in your showroom or store, via email, or through co-branded marketing materials supplied by London Carpentry Specialists.

Step 3: Project Confirmation

When a referred homeowner signs a contract for a New Loft Version design project, the introduction is logged and validated as originating from the partner.

Step 4: Introducers Fee Payment

Upon successful project commencement (and subject to terms), partners receive an introducers fee—a generous percentage of the project value or a fixed fee, whichever is greater. Details of the fee structure are provided upon registration and are tailored for maximum transparency and incentive.

Step 5: Ongoing Support

London Carpentry Specialists offer dedicated support throughout the process, including regular updates, marketing materials, and a direct point of contact for any questions or needs.

Benefits for Merchants and FF&E Suppliers
