<b>REMEMBER:</b> (1) Do not roll windows down for 2 days (2) Any cloudy appearance is normal Up to 90 days to disappear (3) Do not wash or clean film for 30 days after (4) Positively no glass cleaning products. (5) Rear defrost cannot be used for 30 days.				<b>DISCOUNT</b>	
<b>WINDOW CARE:</b> A squeegee is recommended for washing, followed by a Bounty paper towel for drying the windows, Some cheap brands of paper towels are coarse enough to put fine scratches on the film, While the scratches may be thin to be seen at the beginning, they will damage the polish look of the film with prolong use. A good economical solution for cleaning the film may be made by adding a few drops of hand dish-washing liquid soap to a quart of water. DO NOT USE A GLASS CLEANER, VINEGAR OR AMMONIA. DO NOT USE BRISTLE BRUSHES. Stainless steel and titanium films create a more effective vapor barrier and require additional curing time.				<b>SUBTOTAL</b> <u>750</u>	
<b>WARRANTY</b> Top of the Line auto film installations are guaranteed for as long as the buyer owns his own car, against peeling, cracking, or demetalizing. Seller's liability for damage here-in shall not exceed the purchase price of the product. Top of the Line is not responsible for scratches on windows, damage to defroster units, or damage to window Framing material.				<b>TAX</b> <u>52.50</u>
