Tinnitus Presentation and Discussion

You asked and we are responding! On Saturday, March 28, at 10:00 am, we are offering a forum on Tinnitus that will include an informational presentation and discussion on this perplexing and often debilitating "ringing in the ears." Millions of Americans live with tinnitus and folks with hearing loss are not immune to the it. Tinnitus combined with hearing loss can be devastating. This meeting is an opportunity to learn where to turn for help and to network with others who are seeking or have found ways to manage what may seem unmanageable. You are not alone - please join us.

Calendar Mea Culpa

If you received an email from us in late February that included the Calendar of Events and the Dateline Aloha you would have seen a note here about a presentation scheduled for the 3/17 Peer Discussion Group. The presentation was going to be on Aural Rehab. Oops! That presentation is now scheduled for the Tuesday, April 21, Peer Discussion Group. More on that later this month. Sorry for the confusion - but we do wish all of you a joyful St. Patrick's Day!.
