

ULTIMATE HEALTH CARE SOLUTIONS

***Helping students reach their
ULTIMATE goals!***

ABOUT ULTIMATE HEALTH CARE

We are a premier medical training facility located in Whitehall, Ohio that offers accredited training in the following areas:

Patient care (STNA and
HHA)

Phlebotomy

EKG/ECG

First Aid/CPR/AED

Communicable Disease/Child Abuse

As the healthcare sector grows and thrives in Central Ohio, we make it a point to offer those who are seeking career advancement a comprehensive opportunity that includes thorough development in hands-on skill, professionalism, communication, teamwork, medical terminology, policies and procedures, and other necessary requirements for the medical field.

Furthermore, we are able to offer students “building blocks” in their careers as they can seamlessly move from one program to the next to obtain the diverse qualities that so many employers are looking for.

WE HELP STUDENTS BECOME ULTIMATE!

WHY ULTIMATE HEALTH CARE

In addition to our well-rounded training, we pride ourselves in having:

- Affordable tuition
- Flexible class times
- Meticulously selected faculty
- Job placement assistance
(including resume review
and editing)
- High job placement ratings
- Partnerships with highly
reputable area employers
- Short-term, efficient training
- Small class sizes for one-on-
one attention
- Exceptional passing rates for
the STNA state exam

MISSION STATEMENT

The mission of Ultimate Health Care Solutions is to educate students for the purpose of being successful in their chosen careers and future endeavors. The program teaches students to be responsible for their learning, to work as a team, to be problem solvers, to be professionals, and to develop critical thinking skills and communication skills. The program seeks and uses constructive criticism from current students, past students, and staff in order to continually improve our content, teaching methods, case studies, and evaluation systems as efficiently as possible. We provide our teaching staff with the tools they need to effectively reach students and continue their own self-development.

GOALS

*Knowing our
students*

Flexibility

*Getting
students hired!*

PROGRAMS

All of our courses are accredited through the State of Ohio Board of Career Colleges and Schools located at 30 E. Broad St., Ste. 2481, Columbus, OH 43215.

Phone: 614.466.2752. Website: <http://scr.ohio.gov/>

STNA*

Our State Tested Nurse Aide program is two weeks in length, Monday through Friday. Students are attracted to the timeliness of this program and usually begin their journeys here before moving onto our other programs.

Our STNA program is also an approved Nurse Aide Training Competency Evaluation Program (NATCEP) through the Ohio Department of Health.

Students will learn the basis of patient care for adult populations such as the elderly and the disabled; they will learn to respect Resident's Rights; they will learn proper and effective communication; and students will come to understand their role in the "care team" and working alongside other professionals such as nurses and therapists.

Highlights:

- > Hands-on practice in the classroom
- > Abundant opportunities for employment
- > Guest speakers from area home health aide agencies and long-term care facilities.
- > AM and PM class hours
- > Clinical experience at a 4-star rated, multi-skilled nursing and rehab facility
- > Assistance with applying for the state exam
- > State exam review

Pricing:

> Registration Fee	\$50.00
> Laboratory Fee	\$100.00
> Instructional Fee	\$300.00
> Textbook	\$40.00
> Tb Test/	Prices Vary By Location
> Chest X-Ray	Prices Vary By Location
> Physical	
> State Exam	\$104
> Projected Cost	\$594

PROGRAMS

Phlebotomy *

Students can become Certified Phlebotomy Technicians in as little as six weeks. Classes are held three days a week. Students will learn about Resident's Rights in this class as well, along with proper blood draw technique (venipuncture), medical terminology, anatomy and physiology, structure and function of the blood, blood collection "do's" and "don'ts", professionalism, communication, and team-building.

Upon completion of the program, students will be able to sit for the national exam if they so choose.

Highlights:

- > AM and PM class hours
- > Hands-on practice in the classroom (100-stick program)
- > Live blood draws
- > Demonstration with various needles and equipment used in the field
- > Connection to area employers
- > Abundant opportunities for employment
- > Assistance with applying for the national exam

Pricing

> Registration Fee	\$50.00
> Laboratory Fee	\$250.00
> Instructional Fee	\$575.00
> Scrubs	Prices Vary By Location
> Tb Test/ Chest X-Ray	Prices Vary By Location
> Physical	Prices Vary By Location
> National Exam	\$200
<hr/>	
> Projected Cost	\$1,075

PROGRAMS

Electrocardiogram (EKG/ECG)

Our EKG program is an exciting one! Participants of this program can become certified in this budding career field and work alongside doctors to help diagnose heart conditions and diseases. A certification in this little known area will put students ahead of the competition.

The course is six weeks long, two days a week. Students will learn how to coordinate, plan, and deliver patient care by performing electrocardiograms (ECG/EKG) and stress testing. Professionalism and communication techniques are at the core of all of our programs; students will also learn the “in’s” and “out’s” of the heart, EKG readings, medical ethics, and legal aspects of patient contact. The ASPT- Electrocardiograph Technician exam and other National Certification exams are options after completion.

Highlights:

- > Instruction by a medical doctor
- > AM and PM class hours
- > Hands-on practice in the classroom with the EKG machine
- > Connection to area employers
- > Abundant opportunities for employment
- > Assistance with applying for the national exam
- > A “leg up” in a competitive job market

Pricing

> Registration Fee	\$50.00
> Laboratory Fee	\$150.00
> Instructional Fee	\$455.00
> Tb Test/	Prices Vary By Location
Chest X-Ray	Prices Vary By Location
> Physical	Prices Vary By Location
> State Exam	Prices Vary By Organization
> Scrubs	Prices Vary By Location
> Projected Cost	\$655

MEET OUR FACULTY

The Ultimate Health Care faculty is the best! Like our students, our faculty comes from an array of diverse backgrounds. Our instructors have over 40 years of experience combined, yet still continue to expand upon their expertise. At Ultimate Health Care, we ensure that faculty members are experts in their field, have a passion for teaching and learning, and are able to combine these two traits to enhance the learning of our students.

D’Jhonia Selph, RN,
BSN Owner and
Director
STNA/EKG/ Phlebotomy Instructor

Ms. Selph hails from Detroit, Michigan and has quite a story to tell. Ms. Selph started Ultimate Health Care was established almost five years ago with a vision to help anyone of any background accomplish his or her goals and advance his or her career. In 2002, Ms. Selph was homeless but through sheer determination, she was able to pave a successful path as an educator and business owner.

Ms. Selph started her career in nursing as a Home Health Aide and is now completing a Master’s in Nursing to become a Nurse Practitioner with a focus in Mental Health-her favorite topic to teach. She is thorough in her teaching and makes certain that every student is grasping the material. She caters to cultural differences, giving extra care to students with language barriers.

Ms. Selph is also an author and curriculum advisor as well as an instructor of First Aid/CPR/AED, Child Abuse, and Communicable Disease. She lives by the motto: “You can choose your way. Never let an obstacle hinder you from completing your race”.
