Photographic Tribute to the Hispano Founders of Huerfano County

Sylvia Brandl and *Ron Sandoval*, in conjunction with Sandy Dolak, community organizer/historian, created a historically significant photographic tribute to the Hispano founders of Huerfano County.

Join us as Sylvia Brandl shares her expertise regarding the collection of photographs to create an archive of early Huerfano County. Ron Sandoval, founder and administrator of the Earley Hispano Families of Huerfano County, will share his knowledge of the genealogical relationships between the local families.

With deep ancestral roots in Huerfano County and northern New Mexico, Sylvia and Ron have the specialized knowledge and technical expertise to convey their understanding of the historical significance of the contributions of the early county ancestors. They identified 33 families, during the period 1861-1900, instrumental in the early history, which includes 39 different surnames and 19 communities/towns in Huerfano County.
