

**ALUCOBOND<sup>®</sup>**

GIVING SHAPE TO GREAT IDEAS

# ALUCOBOND®

ALUCOBOND® PLUS

4mm aluminum composite material (ACM) comprised of two sheets of smooth .020" aluminum thermobonded to a solid, fire retardant core. Developed exclusively to meet fire performance requirements while providing the benefits & versatility of ACM.

ALUCOBOND® AXCENT

A solid .040" gauge flat aluminum sheet that offers the perfect complement to ALUCOBOND PLUS. AXCENT is excellent for columns, parapet caps, canopies, soffits, and trim.

As an industry leader, ALUCOBOND® brand aluminum composite material (ACM) has been a trusted architectural cladding for over 50 years.

ALUCOBOND is manufactured in Benton, KY and is available in:

- ALUCOBOND PLUS 4mm ACM with Fire Retardant (FR) core
- ALUCOBOND AXCENT .040" flat solid aluminum sheet

The ALUCOBOND product family offers:

- Flatness and Rigidity
- Durability
- Light weight
- Formability
- Ease of fabrication
- Perforation capabilities
- 86 stocked ACM colors
- Custom color capabilities
- Complementary flat aluminum sheet colors
- Can contribute toward earning LEED points
- 100% recyclable
- Zero VOC's emitted in use
- EPD in compliance with International ISO Standards

The versatile characteristics of ALUCOBOND provide for a plethora of applications such as exterior & interior cladding, column covers, canopies, spandrel panels, soffits, metal trim and more, allowing architects to offer inspiring and innovative designs while meeting the standards of sustainable planning. ## CUSTOM COLOR

If you require a custom color for your next project, our color technicians will strive to match your desired color. Please note, custom color orders are subject to set-up fees and require a 1,000 sq. ft. minimum per color. Exact matches are not always possible due to different inks & pigments used in various industries & application methods. Matching a color created by a spray method, particularly a metallic, may not match with a color created on a roll coated method.

To ensure that we identify your color correctly, we require **either**:

- A hand sample of at least 1" x 1",  
**or**
- Pantone®, RAL, NCS or paint code reference

Please reach out to your local sales manager to aid with the process at:  
[alucobondusa.com/sales-rep](http://alucobondusa.com/sales-rep)

Send the color sample along with your name, company name, address, phone number & email, as well as the project name, project location, type of finish and gloss level to:

**3A Composites USA**  
**Attn: Color Lab**  
**208 West Fifth Street**  
**Benton, KY 42025**

# The Spectra Collection

---

To add a dynamic element of fascination and movement to any architectural facade, these transitional finishes celebrate the natural color shifts that occur in the world around us - from raw natural elements to the glowing luster and sheen found in modern alloys and luxury finishes.

Ocean

**Galaxy Blue**

**White Gold**

Cupral

# The Natural Collection

---

Biophilic design conceptualizes spaces in a way that acknowledges the human need to connect with nature. The finishes in the Natural Collection amplify the organic beauty and character of different elements and materials found in the world around us.

**Arctic Frost**

**Sierra Sand**

**Bronze**

**Terracotta**

The image shows a close-up of a dark gray, textured surface. The texture is granular and uneven, with small variations in tone and some faint, irregular lines or cracks. The overall appearance is that of a natural stone or a high-quality material like slate.

**Slate**

**Lava Nera**

**Aragonite Metallic**

**Moonstone Metallic**

**Colorado Gold Metallic**

**Native Copper Mica**

**Rusted Metal**

**Cubanite Metallic**

**Serpentine Metallic**

**Basalt Gray**

**Brushed Antique Copper**

**Brushed**

**Brushed Stainless**

**Brushed Carbon**

## **Reflect Mirror**

\*Sample is meant to demonstrate the reflective qualities of the surface but is not an exact match; please request a sample to see the true mirror finish

**Beechwood**

**Chestnut**

**Rustic Walnut**

A photograph of modern skyscrapers at dusk. The sky is a clear, deep blue. On the left, a building features a prominent, white, grid-like facade. To its right, a taller building is covered in large glass windows, some of which are illuminated from within, reflecting the sky. The overall scene is a high-angle shot of a city skyline.
